CHASING FAME & FORTUNE
ON THE HIGH SEAS!!...

VULGAR DISPLAY OF POWER

Ho Ho Ho,

What is this ???? Another issue of the Pirates magazine ???? Yes dear old sea tars you are not dreaming !!!! The victory was overwhelming and everywhere we went ashore we were welcomed and praised like real heroes (Heroes for the people ed.) so we were eager to release another issue as soon as we could. After we quickly checked our ship to be sea-worthy we took off sea-ward to regain our naval-supremacy. Who-ever thought that we couldn't be more succesfull than our previous quest 'WE PROVE YOU WRONG' and i say 'Ha, Red-Beard always exceeds the limits' !!!! So sit back and enjoy or walk the plank The Year of '93 is nearly at its end and we hope its been fertile (hehehehe ed.) for all of you... May many sailors join our forces so we can explore new frontiers and keep the Jolly Roger waving in the wind forever...

Pirates are not restricted by time... If you don't understand half of my nautical language, don't worry neither do i

Still i would like to adress a few words to my crew-members. If it might seem that this issue has been delayed then i can only say that its not all up to me !!! I can only start on doing things as soon as there's enough stuff to work on .. AND THAT IS UP TO YOU AND ALL OF OUR READERS.... So if you want us to continue doing what we do best then its up to you people to react sooner and send in stuff...

F4CG

King is no longer active for the group as he is currently doing his military service... therefor he gave his modem to PLAYBOY who is a new Italian coder and modem-trader !!!
WOLF got booted out of the group due to the fact that he was spreading shit about other members of the group and because he joined VISION as a second group.
LARRY joined up as a coder and grafician after he left TRANCE. Also ANTITRACK left
LEGEND and joined as re-enforcement for our cracking division. IDOL left REGINA as he wanted to be in a cracking group and is a new mail-trader. UZI SUICIDE joined the group as a wares freak and backup code supplier. Soon F4CG will also be active on the SNES with former group members and only 64 people... to be continued.....

AVANTGARDE

A new group in the scene which looks very promising if you consider the memberslist.
Their US board is former Chromance Hq 'Chaotic Factor' which is run by Oddyseus, but it seems like the board crashes all the time. Soon after they started they got some problems with a couple of members. Derby Ram left the group due to personal problems and will not return before his probs are solved. Pbxcellent joined up with the group as hacker, and supposedly SUB-0 should have joined but due to incompetence he was not taken in. Onyx/Darkelf also left as soon as he joined due to personal problems. Soon some new members will be attracted but at this point nothing is known yet.

Current memberlist :

Delf-Jack Daniels-Richie-Jack Alien-Wizler (old member of The Light Generation ed.)-
Skywolf-Weasel-Freestyle-Ironcat-Lucifer-Magic Man-Cybersurfer. DARKLORD

LEGEND

Hmm the changes in LEGEND were very weird... First ATMOS left the group and joined SCS, but then shortly after rejoined. Then SKATER left the group and went PC (Rumours say that he left because of ATMOS ed.) and sold all his 64 equipment in order to pay off his phone-bill. Also FLETCH,DOC and MIRAGE left to go PC. XXX got inactive but recently he should get active again or at least thats what he promised. Then WESTBAM left the group because him aswell was fed up with ATMOS, but a couple dayz later he rejoined. Also SKATER rejoined and might be doing SHOCK on the 64 again (errr... yeah right ed.) And like that wasn't enough also Fletch should return among the active members... sheesh. Their latest gain was TYREE who came back to the scene and is supplying, altho RADAR spreads around that he only joined in order to get cards and axes on the board. We remain in silence..

Current memberlist :

Powerplant-Westbam-Skater-Fletch-Atmos-XXX-Rebel-Doc-Tyree

RSI

Not that much going on in RSI these dayz but the things that did happen were remarkable...
IRATA's supplier DRUNK'N RUM got busted so they had to get a new supplier and took a new supplier from the Amiga called LINCOLN who was tryingto form his own 64 group under the name of Pantera, but as it seems we won't get a Vulgar Display Of Power... boe..

INTERVIEW

P : Who are you ?? (Handle, real name, group)

B : I am The Breaker of the group RED SECTOR INTERNATIONAL (INCORPORATED you illetared fool ed.) ehhh... Yeah INC, its because i work for a company that is called Int., thats why i'm getting confused here. (Good excuse ed.) My real name is Andy Payne (Pain in the ass ed.)

P : Give us a profile of yourself (how do you look?!)

B : Well you know Tom Cruise ??? I don't look anything like him !! I'm 5'6" (Migget ed.) I'm 26 years old (old indeed. ed.) and i don't look it. Hopefully that'll be to my advantage when i'm 40. I'll look 20, i'm out club'n and picking up the women (Baby face ed.) Hopefully it won't be catching up on me and one evening i'm 30, wake up and i'm 90. I weight 64 kg (130 pounds ed.) pure muscles (spare me ed.) My hobby's : I work out alot as i got my own work-out set (2 weights of 5 kg right? ed.), then there's the 64 computer stuff and i have a highly subtop minicar, no minicooper, better and faster! Thats one of my hobbies, modding that one car! It has a big engine in it and it goes about 120 mph! Not for racing but for showing off!! (Story of your life eh??? ed.). 0-60mph in 7 seconds, custom paint-job! So if i'm not messing on my car i am messing with my 64 or my women! I'm engaged for 6 1/2 years and we are probably gonna marry somewhere next year, exclusive news for you..... (Be sure to send us an invitation, we'll be there making a part-report... ed.) FREE BOOZE...

P : Whats your background ??? (History, groups etc...)

B : In 1984 i got my first 64!! Before that i had other computers like BBC, Texas TI 9948 ! (Skip that ed.) I bought my 64 just to play games as i had seen some stuff at a friends place and i liked it. Those people were in no groups. It started very innocent, just to play games. I only had a tape, for quite a long time. So about a year later i met up with Mr.Spock of DCS in an original shop in our town! I was buying some old game, don't remember what anymore! So he approached me, asked me if i was buying that game and he would give me some stuff if i'd let him copy it. He told me he was in DCS, at that time being early '85 ! So i started swapping with Mr.Spock and a some time later he asked me to join. I had no real job (and now you don't either ed.) just spreading stuff locally (They were not famous yet so thats why they let you join ed.) DCS was a local group when i joined. DCS means Doughnut Cracking Service and there were a lot of people that were so called in DCS that even don't know where it came from. The town where we live, Basing Stoke, got the nickname Doughnut City. It was given by the truck-drivers because of all the round abouts on the road about every 100 yards. Back then Buck Fuzby was the only cracker. He used to copy from tape to disk using G-MON. I watched him doing some cracking and got into it ! At that time crunchers were not really around and people didn't train games, it was just to get the game on disk any which way. Thats how i started out, my cracks just had a small char-scroll on it coded by Buck Fuzby which was great at that time. Mainly the other guyz were just swapping with other people and things just grew from there on. I was not the original supplier as most games were supplied by other local people which doesn't mean i didn't get any, as you can see nowadays....

P : You have always been in DCS ???

B : Yes ever since the early dayz i have been in there !! What happened with DCS was that it should have only ever been a local group ! Some other people were let in by CRIME (ex-NATO ed.) I used to swapp with him and he was quite o.k. but he let other people in the group without asking any other DCS members and it just got a bit

crazy.! For example i was cracking a game for DCS and then i saw another version from Nosah or anybody. That pissed me off.

P : Was Nosah ever in DCS ????

B : He was in DCS coz he was let in by someone, probably CRIME or so... This is where it started gettin silly... It was already a couple of years after most original members left. THE oldest members were me and Stratos who used to do alot of modem trading! He was my neighbour. I used to crack the games and then he would send them to FBR etc... So alot of so-called members were not in such as Nosah! They got to join because someone like CRIME who actually got asked to join himself let them in. So if you look at the facts he was never a DCS member... They were good crackers and it is because of people like Nosah, Hendy and others that we were topping the charts! But there was no organization and several versions of the same game got released! There was the DCS up North and the DCS down South, there was not enough communication. I think they even didn't knew who was running DCS. First it was Mr.Spock and after he left i was about the only original member left! So looking back at it, letting CRIME to join was not such a good idea coz he let alot of people join without getting back at me if he actually could or not. They were all living up North, they spoke to eachother but didn't include me nor Stratos. So i was sometimes working on games they already released and didn't bother telling me. So i was wasting my time!!!! Even with Nosah's IGUANA it was the same, i never got a single issue (I'll send you a couple ed.) I wasn't too happy with what was going on andi started doing games with just a "The Breaker" intro!!! So i also stated in there that i had the power to kill the group and so i did!! That was then 89-90. I dunno if it died then or not but according to me it did as i was the longest lasting member! And i'll allow nobody to reform DCS as long as i'm around on the 64 (bad luck for Parson i'd say ed.) I might have dissapeared off the scene but never quit tho'!! Simply all the people i knew were gone like KMP/Danish Gold, Jabba/HTL etc...! I still got originals and i was doing games for myself. So i lost contact with the scene also because i didn't have any modem. I was happy just getting what i was getting. Then after a while i wanted to get back into it but as i had lost all my contacts it was pretty hard... So i advertised in a mag to ask info on C-64 boards. And i got a call from someone and told him who i was etc... If i'm not wrong i think that one of the first people i got back in contact with was someone from Mayhem. He send me a couple of disks with Mayhem cracks and so i joined them for a couple of weeks. Then i joined X-rated just to get back in the scene. Thats where i met Count-0, I started getting originals pretty quick and so PB/RSI got in touch with me and he tried to get me in RSI whom i knew from the old dayz and so i finally did !! Then i got Nick Faldo's Golf which i supplied to RSI ! So all of this happened around end 90, early 91. I just wanted to get back into the scene for the software. There are no original shops anymore around my place, so i just get'm direct from the companies. I call them up and bug them for the games so they start to know me as Mr. Game Collector.

P : What is your function in RSI ???

B : I swap with collectors and any people that want to swap old games ! I mainly supply originals and i call boards. I call out alot, i simply don't post that much ! And from time to time i do crack !!

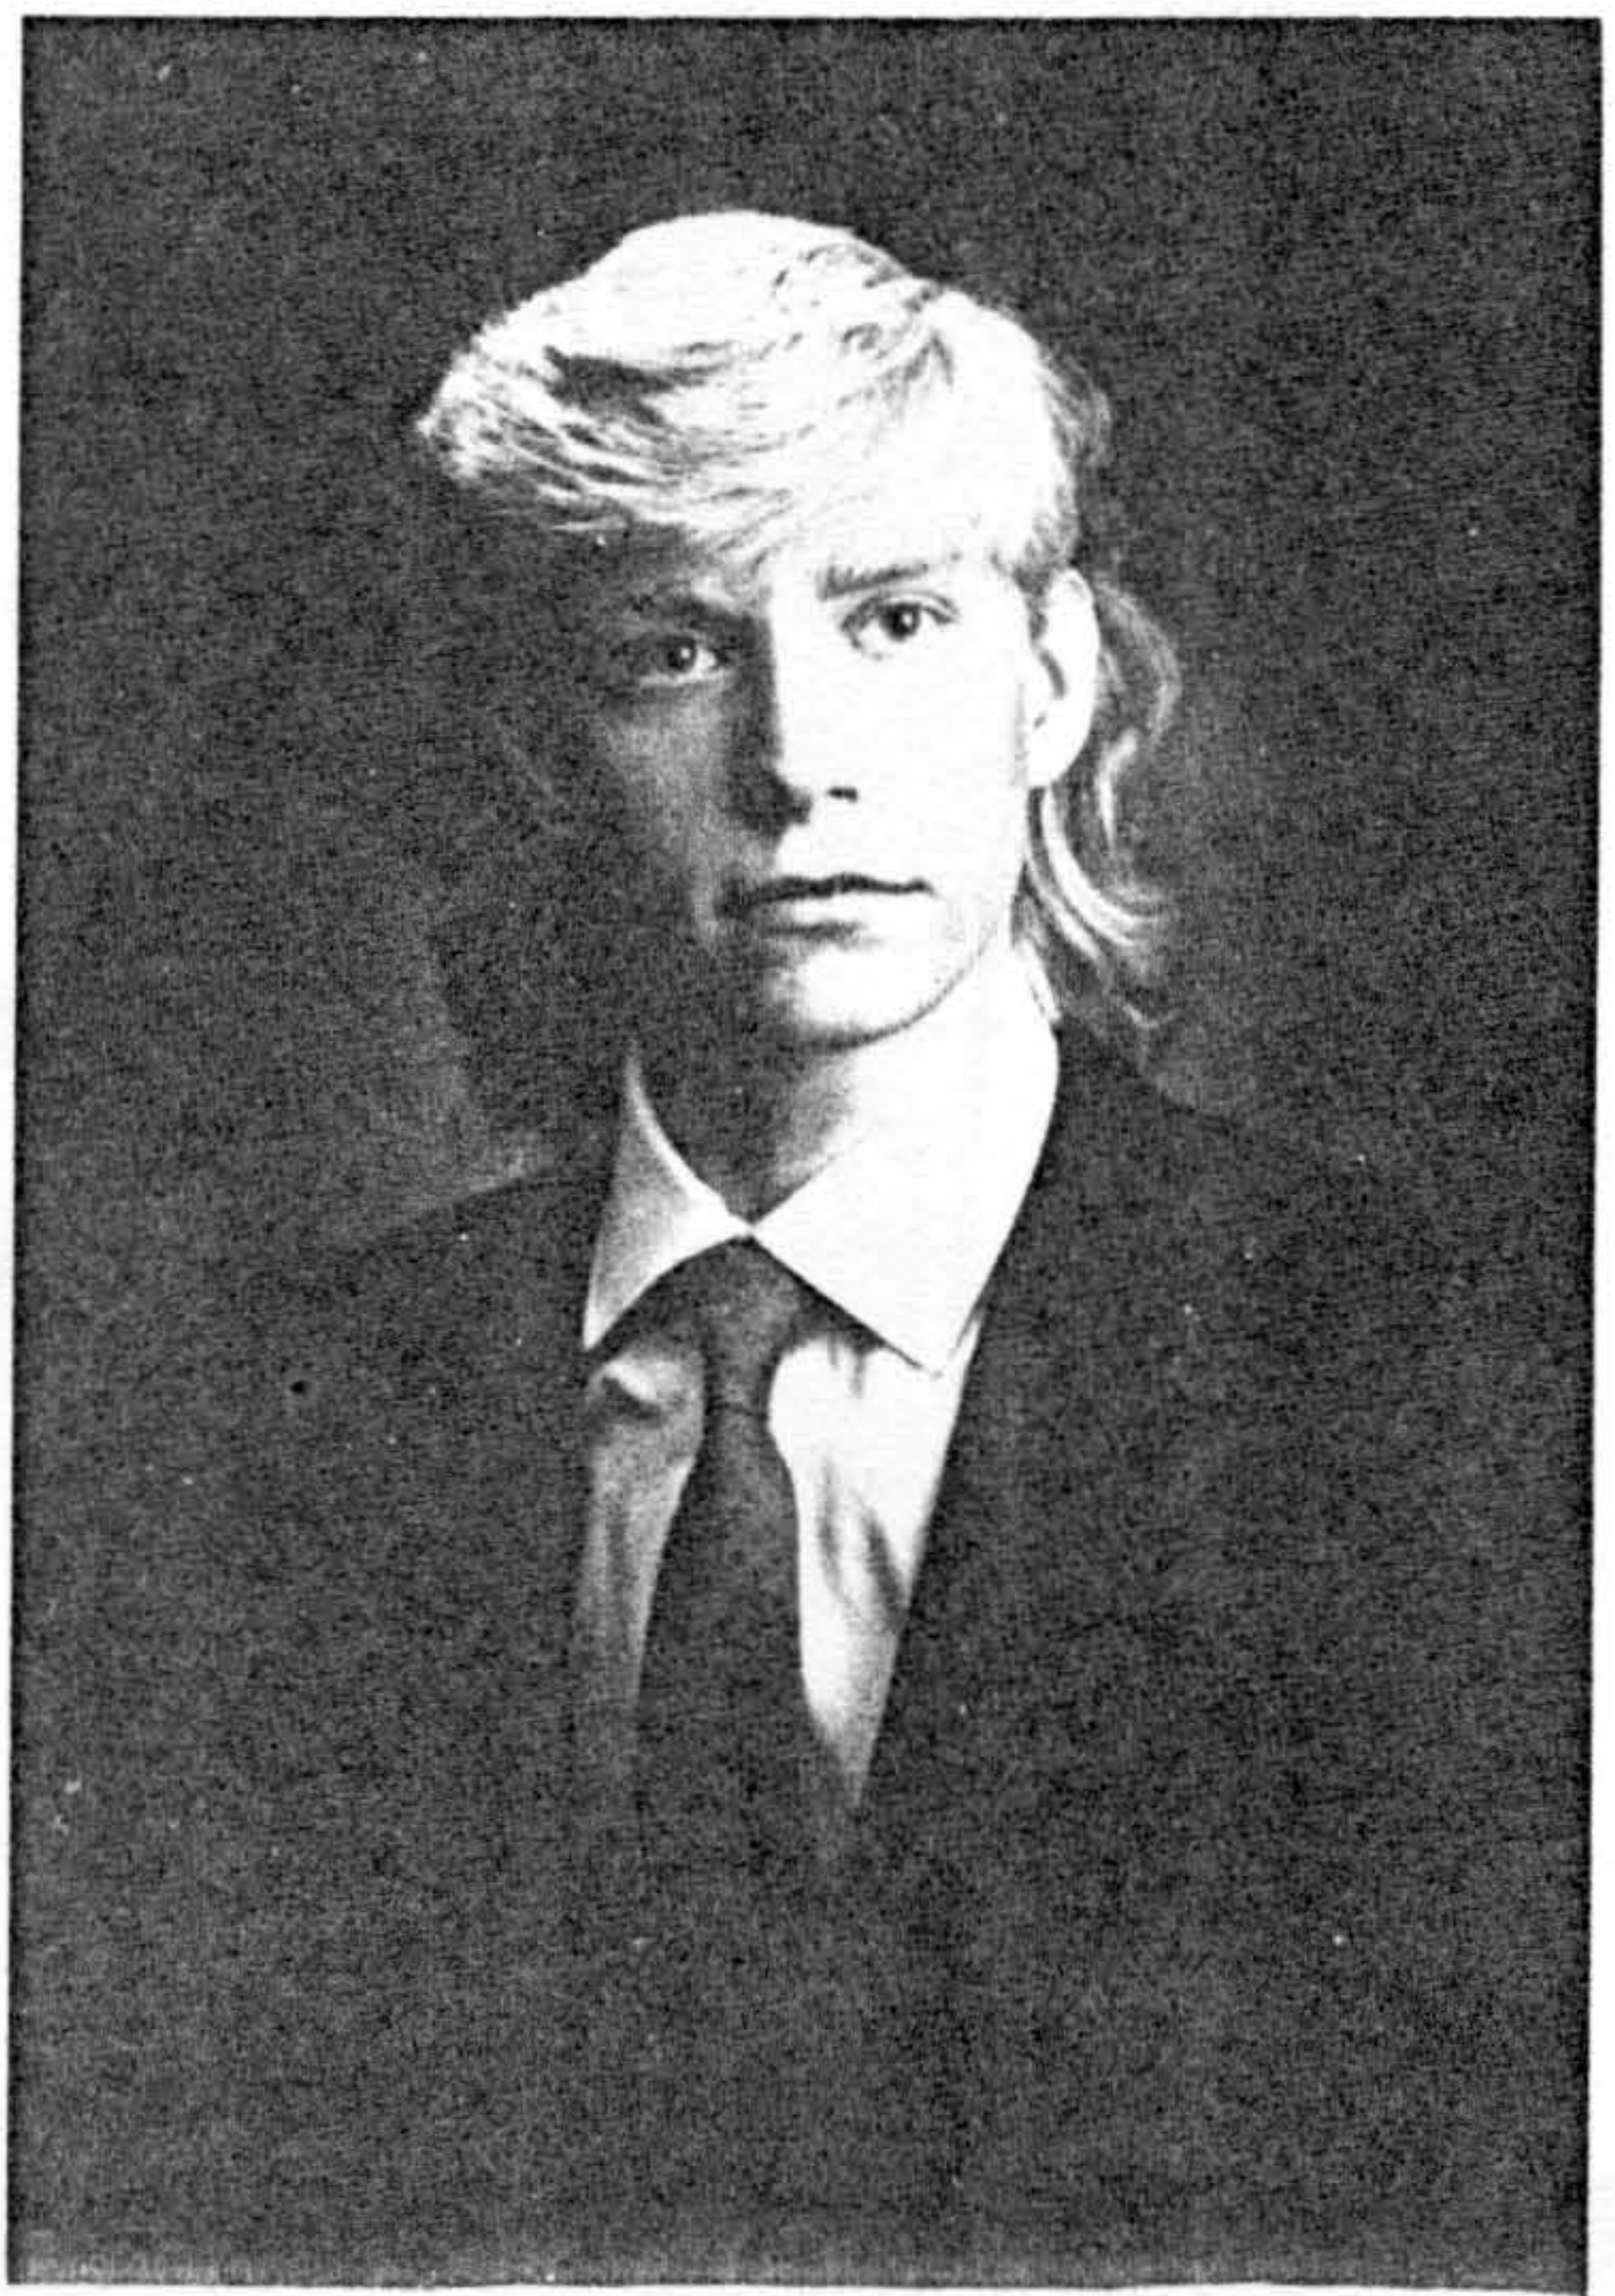

P : How would you compare the old and new scene ???

B : It was defenatly more fun in the old dayz, now its mainly the first-releases that count because of the lack of software. You got less time to work on it which forces you into making versions that i really wouldn't wanna do. In the old days it wasn't that important to get first-releases in order to make a name for yourself because there were so many originals around that alot of groups put out games that others didn't have !!! But what comes out nowad'ys are better quality then before.

FENI/F4CG!

Yes DEAD ZEPPELIN once more but

The three amigo's in fr'ont are from L-R Playboy/F4CG, Neotec/F4CG+REBELS

our own KING/F4CG

LEFT->RIGHT: ATTE, ARGON, ELECTRIC (FUCKIN' HIPPIE), KNIGHT (BACK),
DR. ACID (FRONT) AND TLK (DEAD) / EXTEND

Hmmm someone call the Paramedics or dial 911 coz i think ATTE/Extend
doesn't feel too well... barf... Puke... gggrrraaa...

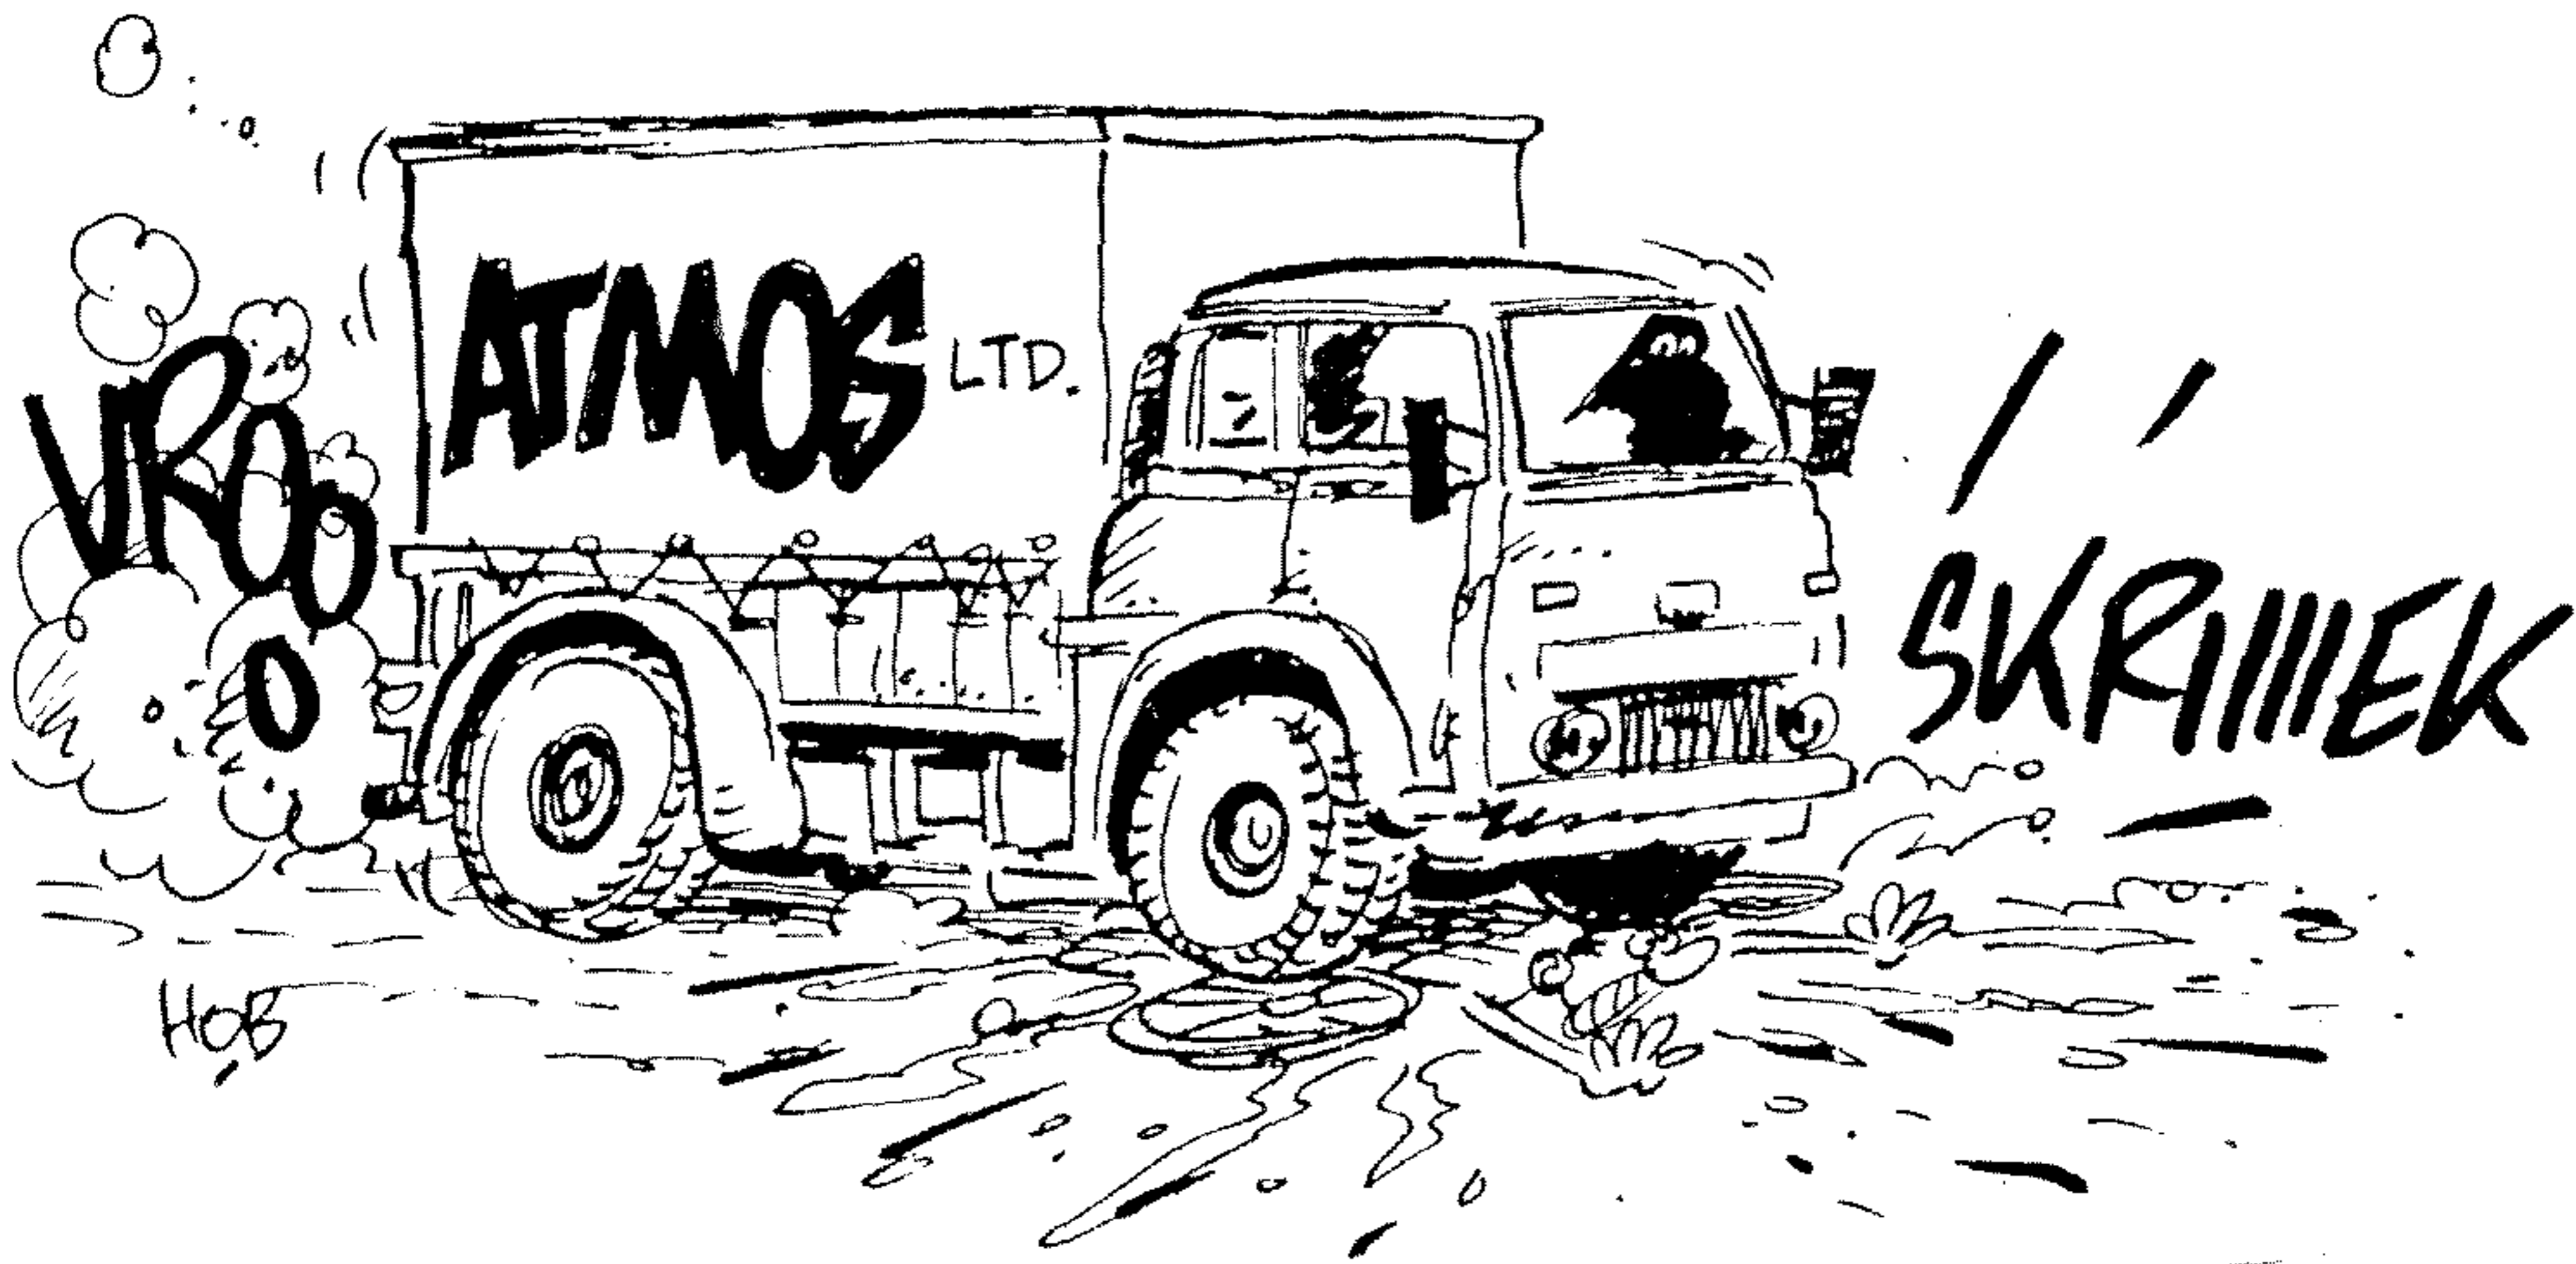

P : How are you like when you are drunk ?

B : HORNY !!! (Have you been drinking now ??? ed.) Nope, and anyhow, only women are in danger then!!! (OK just checking ed.)

P : Ever been in trouble with the cops ???

B : Yes, but nothing to do with the scene. It was for receiving stolen property. And actually being there when it was getting stolen didn't help much either. BBC computers. Someone broke in and stole computer equipment and i was waiting for him to give it yo me to stick it in my bag. But i got caught, crime doesn't pay!! I got fined because they knew i had it, not that i was there. They still don't know it unless they read Pirates. And they also keep on stopping me for speeding. The speeding limit on a normal road is 30-40 mph and 70 mph on the highway. Each time you get caught for speeding they increase three points on ya license and if you have 12 of em you loose your lisencc, and ofcoz i already got 6. It stays there for about 4 years + you get an additional fine and your insurance goes up.

P : Who was the last person you slept with ???

B : Boring answer.... my girlfriend....

P : Who are/were your best friends in the scene ?

B : my best friends were the rest of the local guyz and KNT/Danish Gold, Yabba/HTL, TMC, Hodem/FBR and now it must be the rest of RSI (PB, Count-0) and Steve/LAZER (ex-Zenith)

P : What are your best memories about the DCS time ??

B : The best times about it were the time when it was good and when the 64 was THE machine, when it had all the releases and you could go downtown and pick up 6-7 new games at a time. Me and the local DCS gathered every Friday at someones house and copied all the latest things that were around and catch up on software.

P : When did you last cry and why ????

B : Boy...tough question, can't think of one. (too embarrassed to tell eh ed.) Next time will probably be when i read this in Pirates !!!!

P : Who would you mostly like to meet ?

B : Scene-wise : Everybody, just to see who all these people are! Especially those that have been around for a long time.

Real : Sharon Stone, so we could re-inact Basic Instinct.

P : Your favorites

B : Fav. game : Paradriod, IK+, Maniac Mansion, Castle of Terror, Mayhem in Monsterland and the Turrican gales.

Fav. demo : I don't think i see alot of demo's to judge but i got all the CREST ones, i like Blackmail. Anything that has nice routines, i hate those demo's that look like intro's linked onto eachother. Red Storm Rising/Triad.

Hobbies : Fixing my girl and car.

biggest disappointment : Life ! (oeps despressive ??? ed.)

greatest experience : Whats left of my life.. hmmm too hard ! The greatest experience must be loosing my life!!!!

slogan : I don't have one.....

P : What music would you like to have played on ya funeral ???

B : Music by JCH.. music from Creatures....

P : Any future plans for RSI you wanna reveal, personal plans ????

B : RSI wise would be to keep on supplying originals and to remain N° 1 (what do you mean REMAIN ed.) I'll keep on supplying as long as there are games and to support it untill there no-one around any longer. I do have an Amiga butam not doing much on it !!! From time to time i make music with the JCH editor and pro-tracker on Amiga! I might supply TRSI on PC and Amiga with originals.

P : When you look in the mirror do you like what you see ?

B : No complaints. Still only got one head. Could be worse (Yes you could look like Bod ed.)

P : Any last comments ?

B : If anyone out there still remembers me from the old dayz they should get in touch and if you are a collector of games you ought to contact me.

WORLD OF COMMODORE '93 / COLOGNE

The W.O.C. (Former Amiga-Expo) this year took place from the 5th to the 7th of November and really was a pain in the ass... Sucker (Who used to be in Crazy a long long time ago) and me arrived there on the 6th November at 14.30 p.m. Normally we should have met up with Jack Daniels and Peacemaker of Chomance at the entrance but due to the fact that we were half an hour late we missed them both. Gladly Jack Daniel spotted us later by coincidence. Normally this report should have included some photo's but the film got screwed. Too bad, as we really made some funny ones. We took a picture of a german guy with a piece of paper on his back saying Justice of 711 and some more shots from hostesses and the very few 64 guyz hanging around... Those that made an effort to show up were CBA and Cavron/TRC, Ramirez/Trance, Jack Alien + Avalanche + Dr. Disk/Atlantis, Dr.Jones/ex-Vision (Now that Curlin rejoined Vision he might rejoin aswell ... hehehe...), Toxyc/Extacy, Airwolf/G*P and certainly Jack Daniels, Sucker and me. Guyz like Peacemaker/C, L.A. Style/G*P, Water/RSI and some AFL members were said to be there aswell. Hmmm.... we defenatly didn't spot them anywhere (Don't be that shy next time girls ed.) Well the fair itself didn't offer anything for the 64 guyz at all... It might have been of some interest for the hundreds of TRSI Amiga guyz walking around, wearing Radwar-Party promotion T-Shirt and handing out invitations... All in all the fair was a total waste of 15 german marks (10 \$ ed.) Be happy that you didn't go there.. Conclusion ????

Sucker and me better should have gone to the soccer match (only 6 german marks which is 4\$) between F.C. Koln and Werder Bremen as Koln won 2:0.... The highlights of the W.O.C. were that i got a date with a hostess from the Micropose stand for the RWE party and that i got some headphones for my Walk-man... Fuck that shit....

About **SPORT**

Take a close look at the three persons above, as you can see they all are dependent on sport. The symptoms are similar to heavy drugs and alcoholic, the day after you feel weak, your body is shaking and it's hard to control your muscles at 100%. Some people tell you to cure it with new sportactivities. That is dangerous, believe me. If you should drink a bottle of wine to cure your hangover, or take another injection to cure your drugdepression you will soon become an alcoholic or a druggie. So don't sport. After one try you might need it !?!

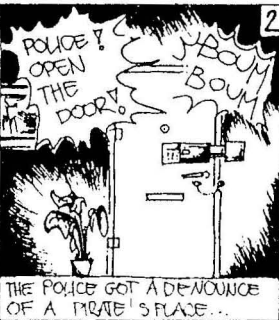

Take care,

Join the GAY-Club... First members are NEWSCOPY/G*P and TERMO/RSI... hahaha

Finally it was that time of the year again !!! 'LONDON CALLIN' i would say. Once a year i pack my bag and take off to London, England the place to be !!! It was looking very promising as RSI,G*P,TRC,TALENT,ILS etc.. would be there. Also Kid, Ninja and a local friend Johan would be heading to the ECTS show with me! Cool!! Main thing was to meet up with some guyz i never met or only see them once a year on the show !! One of the main reasons was to meet up with my good pal NEWSCOPY. As our flight was leaving ealy Saturday morning i went over to Ninja's place as also Kid would be there! Arriving there around 6 PM we set up his SNES system and we started playing games. The cool thing is that he can load up stuff from his PC and they are transfered right away into his SNES, pretty fast!!! I was laying Populous for hours. Always been my fav game on the Amiga and now on the SNES aswell. Anyhow we went to sleep at midnight and we had to get up at 5 AM! Urks! I could've shot the alarm clock but hey duty calls. Packed our bags a bit and off we went to Brussels airport. On the plane we were served breakfast and apperently someone didn't enjoy it too much as i saw a bag full of barf passing by (Yum Yum ed.) HeHe, Cool Beavis'n Butthaed would say!!!! The rest of trip was pretty ok. Well it was only 40 mins flight so not too much could go wrong. Once we arrived we checked in at Ninja, Kid and Johan's hotel ! As they were only staying over one night they booked a room at the NOVOTEL. Pretty expensive if you ask me.... On our way to the hotel we got this strange impression of a bad smell following us all the time (God Kid you need a shower ed.) when all of a sudden Johan figured out that his bottle of aftershave was empty in his bag. So we had to get rid of it as it didn't smell like aftershave but shit and as the room in the hotel wasn't free yet we left them at the reception-save of the hotel (So they were stuck with the bad smell hahahah ed.) Then we took the underground again and went to Victoria station as i arranged a meeting with who ever that was gonna show up at 12 o'clock. We had to look for RED-haired Newscopy and Japanese Tronic. We couldn'd find em so we yelled TRONIC's real name out in the station. Two guyz looked up which we already passed plenty of times! I couldn't stop laughing about it. So next time we won't be looking for a red-haired one. As we were talking for a while BOD/TALENT joined us and a bit later FREESTYLE/(ex-ILS) and a friend showed up aswell... So we were awaiting the RSI guyz who drove all the way up there!! But we didn't see them. Who said that RSI is always the number one? Ha ... i didn't... First concern was to get a place where i could spend the night, as NEWSCOPY and TRONIC could probably sleep at a friends place. So i told them to ask for me aswell!!!! Just to be sure to have a roof above my head i reserved a place at the Youth Hostel where FREESTYLE was staying. So we went off to check in at Ninja's hotel and NEWSCOPY ans TRONIC were gonna meet up with their friend while the rest split up meeting eachother again at 4 o'clock at the Virgin Computer

Store in Oxford Street. Once we were in the hotel we got our bags (and the guards were glad to get rid of the bad smelling bag) and dropped em in the room. We went off to eat a bite at Picadilly Circus. Me and Ninja went to Burger King and Kid'n Johan went to Pizza land! And ofcoz Kid'n Johan came back too late so we had to rush to Oxford Street to meet up with the rest. Arriving there too late and the fact that there are two Virgin Compu stores resulted in us not finding them. Shit no place for me to stay at except the Youth Hostel. Oh Well!!!! We cruised around a bit more and checked out Virgin Megastore, HMV, Tower records, Funland etc... Then all of

Now you all know why the making of an new PIRATES issue takes all that time before it ever comes out.... Solar doing what he does best... SO-LAZY !!!!

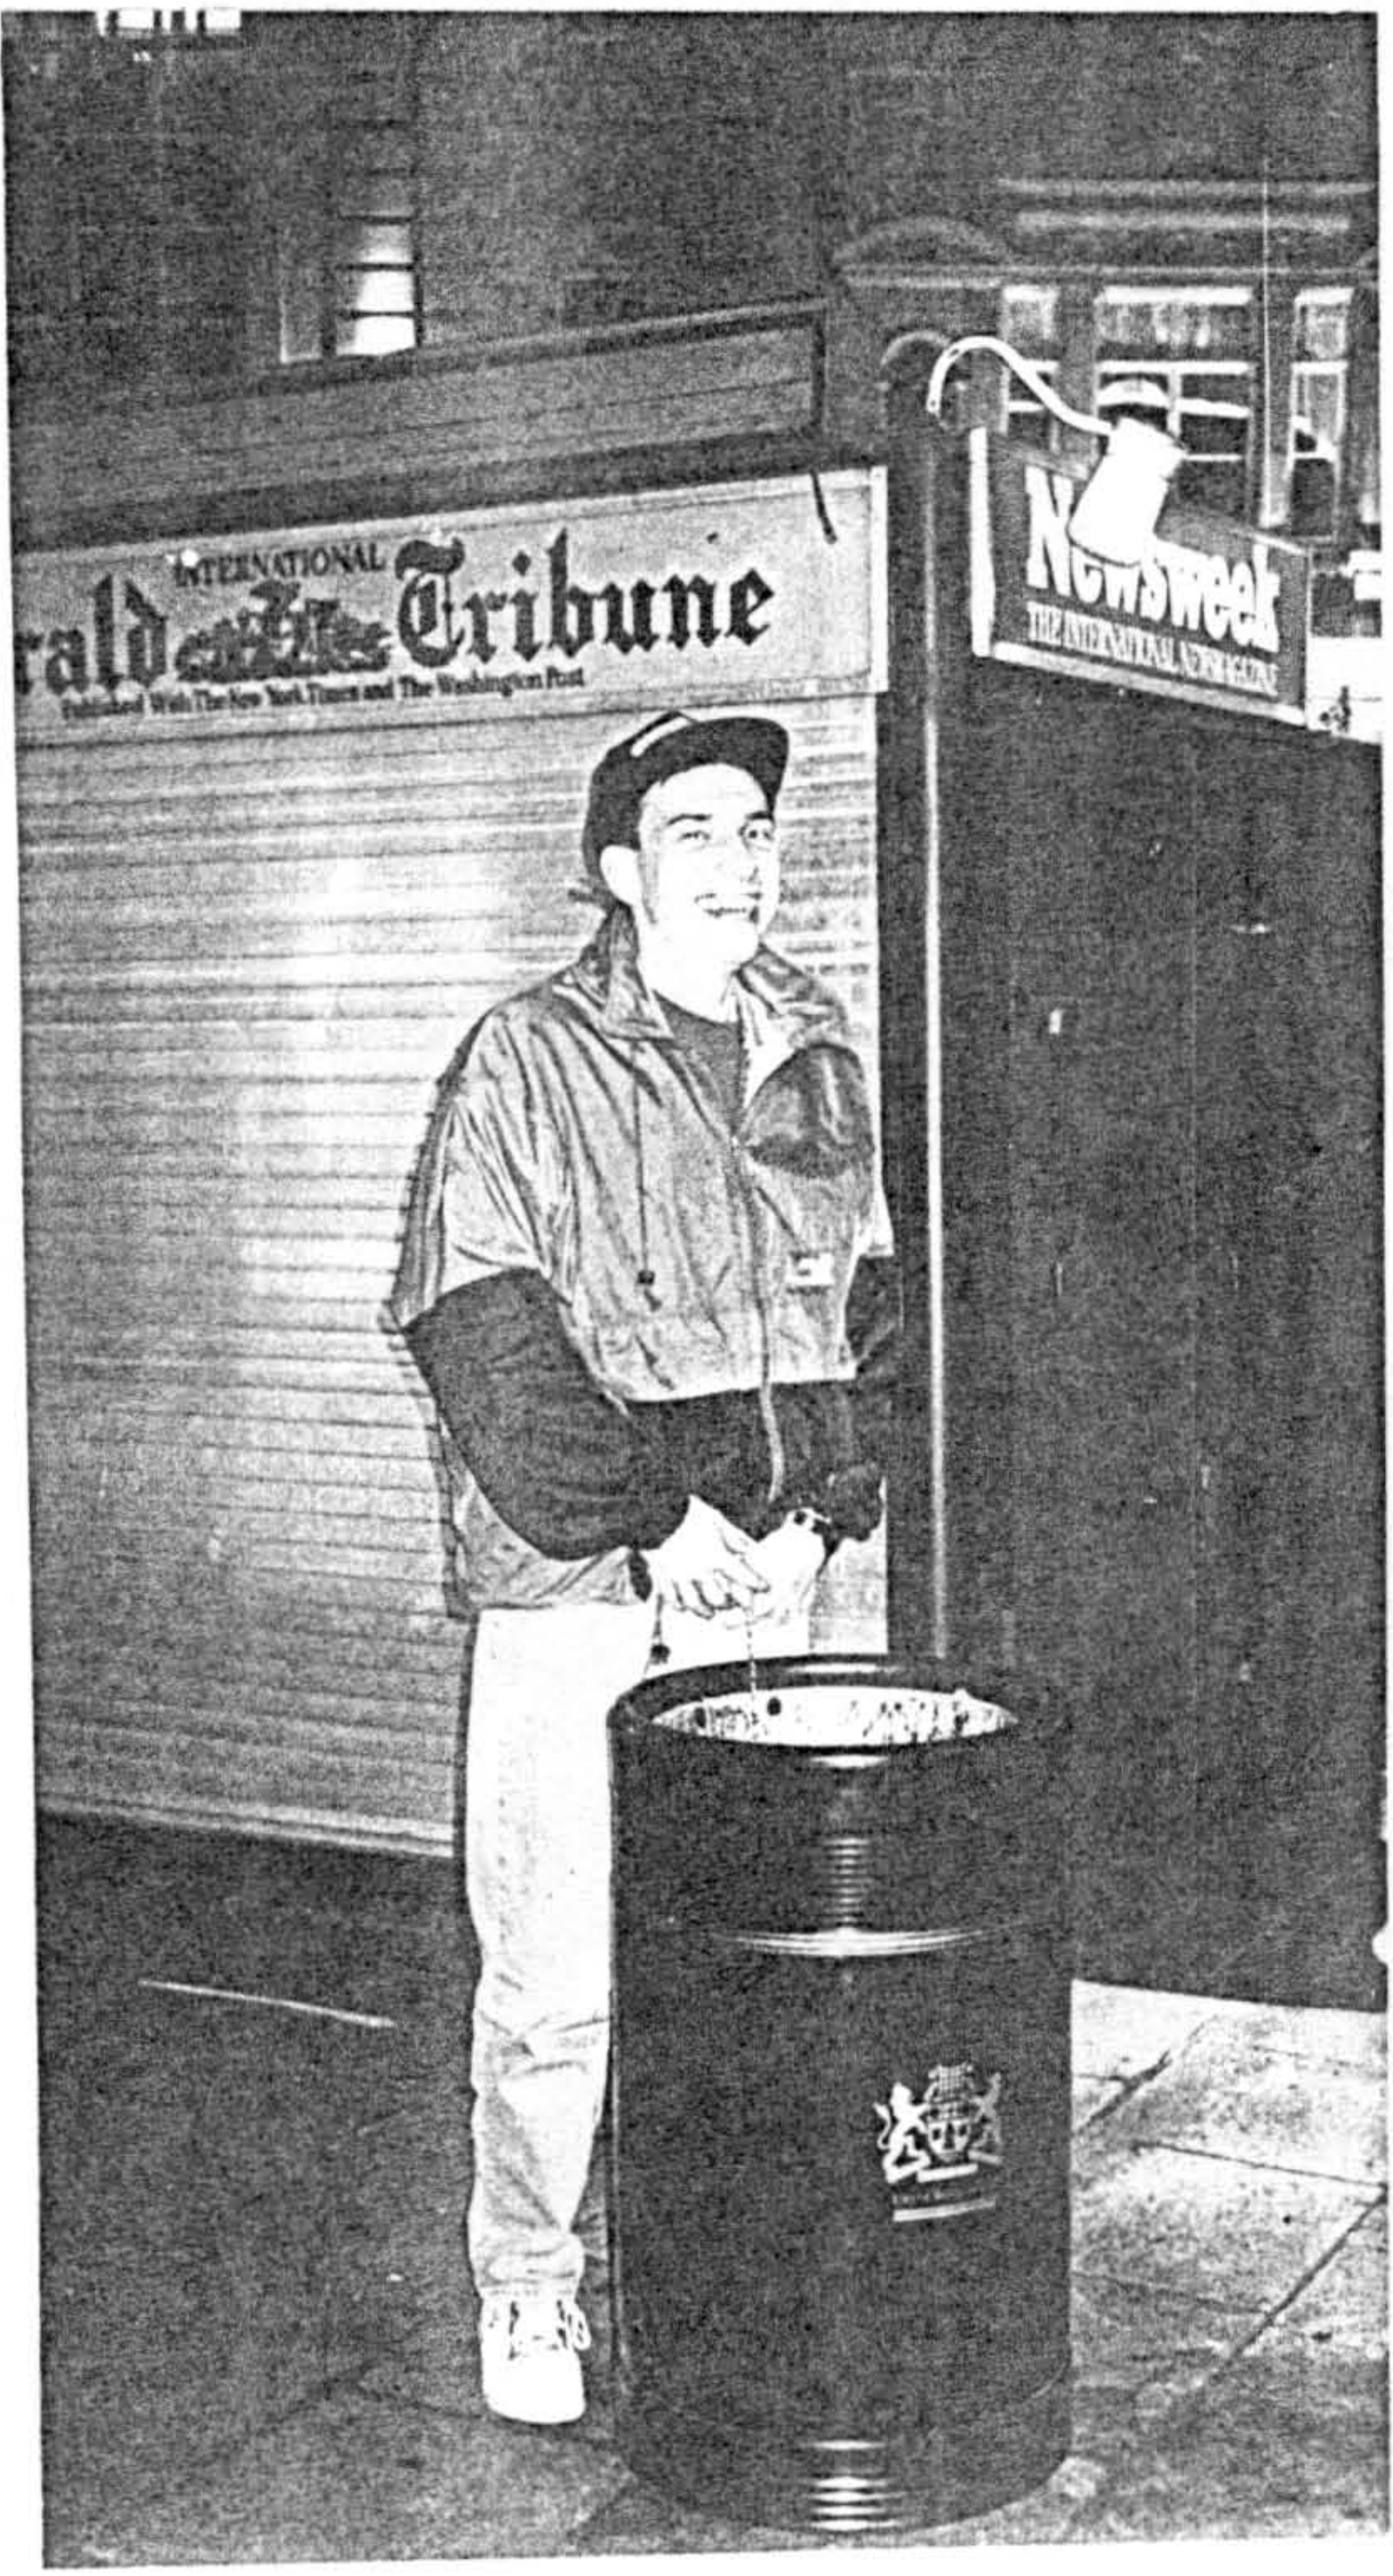

a sudden Ninja got the crazy idea of going to the movies as he wanted to see SLIVER featuring Sharon Stone (You horny li'l prick ed.). Kid and me didn't wanna see it coz we were thirsty and the movie would be out in Belgium in a week anyhow.... So we took off for Carnaby Street to check out some more underground shops and a cool pub. We had to meet the others back in the hotel at 8.30-9.00 PM!!! Ofcoz we started boozing and we started talking to some of the natives (real blond ones KID!! My oh My ed.) trying to find out where the interesting places were as most English pubs close at 11 PM.. What a joke !!!!! As we were sitting there, boozing, smoking and talking time passed by and it was getting close to 10PM ! So we went to the hotel, washed up, changed a bit and off we went... London here we come... We went in search for a club called 'Ministry of Sound' (The Ministry part sounded cool, but that was it !!! ed.) but we couldn't find the place (phew good ed.), so we went to another one called 'Club 4 Life' at Covenant Garden. A big queu in front of us and 12£ entrance!! No shit, the place better be real good as i don't like discotheques in the first place.... Ninja was chickening out as i had my knife with me (As i always do so you people out there are warned !! hahaha ed.) so i hid it in my shoe and the fucking security didn't even bother checking me (What they did with most others ed.) becuz of an old trick i always use on special occasions like this hehehehe !!! Anyhow we went in and the place was rather ok mainly becuz they had Belgian beer Stella Artois.. While we were drinking (Again gosh... ed.) and shaking our li'l butts off time passed by and so we were about to order our next beer we didn't get anymore... Eh what did you say??? Yep no booze after 3 AM... aarrghhh What the fuck... Most pubs close at 11PM, then you have to pay big time money to get in a half way decent club and then you don't get beer after three anymore.... Sucks donkey dick or what???? Kid got angry becuz of that and as Ninja was laughing at him (As Ninja doesn't drink alcohol ed.) he get even more angry and so we left him and Johan and simply took off.... No Booze No Pardey !!!! Walking through Soho we took a night buss and at 5 AM we

Even the guyz from the mob were present.. L-R THE BREAKER/RSI and NINJA

Hihihhi, its so much fun pissing in garbage-cans on Picadilly Circus... hehehehahaha Hey wadda ya doing... No picture.. STOP... HOK/RSI in action!!

Hmmm i wonder why he's laughing that hard..

I don't see anything.. Hey that guy is leaking.. I still don't see anything.. Now i know why Sorceress was disappointed.. No wonder she prefered ANTICHRIST

went to sleep... Finally.. Not for long tho as i had to get up and meet Tronic/ILS and Newscopy/G*P to give them their entrance tickets which i still had with me. At 9 AM i got up, packed my bag and snugg out the Hotel. First i wanted to dropp off my lugage at Victoria Station and guess who i accidentally ran into ??? Newscopy and Tronic, what a coincidence... Phew !!! Happy we met without probblems. We put our lugagge in some lockers and we went to Mc Donalds to go'n eat breakfast and then we left for the show... We arrived there at 11 AM and there was a big crowd waiting ahead of us but as we were invited we could take the second entrance where there was no people in front of us... Cool deal.. Walking around the place we met up with some other people and at 12 AM there was a general meeting outside in front of the building. There we finally met Psychobilly, Communist, Termo, HOK, The Breaker, Bod, Freestyle, Case, CBA, AJ and Richie... So Newscopy, Tronic and i went back inside and headed straight for the bar (Newscopy's idea ofcoz... hehehe ed.) It was beer time again and it was like Psychobilly knew what we were upto as he followed our steps. So then we started spreading some issues of the previous Pirates. I couldn't keep myself from dropping one off at the F.A.S.T. stand (Federation Against Software Theft) while Newscopy was distracting the lady (I wont let you in on the juicy details how he did it ed.) Then we checked out some more stands and played lotsa (Lotta ??? ed.) SNES games... Too bad there was nothing to steal as the companies took their precautions (They knew we were coming over i guess ed.) Around 2 PM we ran into Ninja, Kid and Johan who finally woke up and were checking out the show aswell !!! Then we decided to have a couple more beers and went outside where we

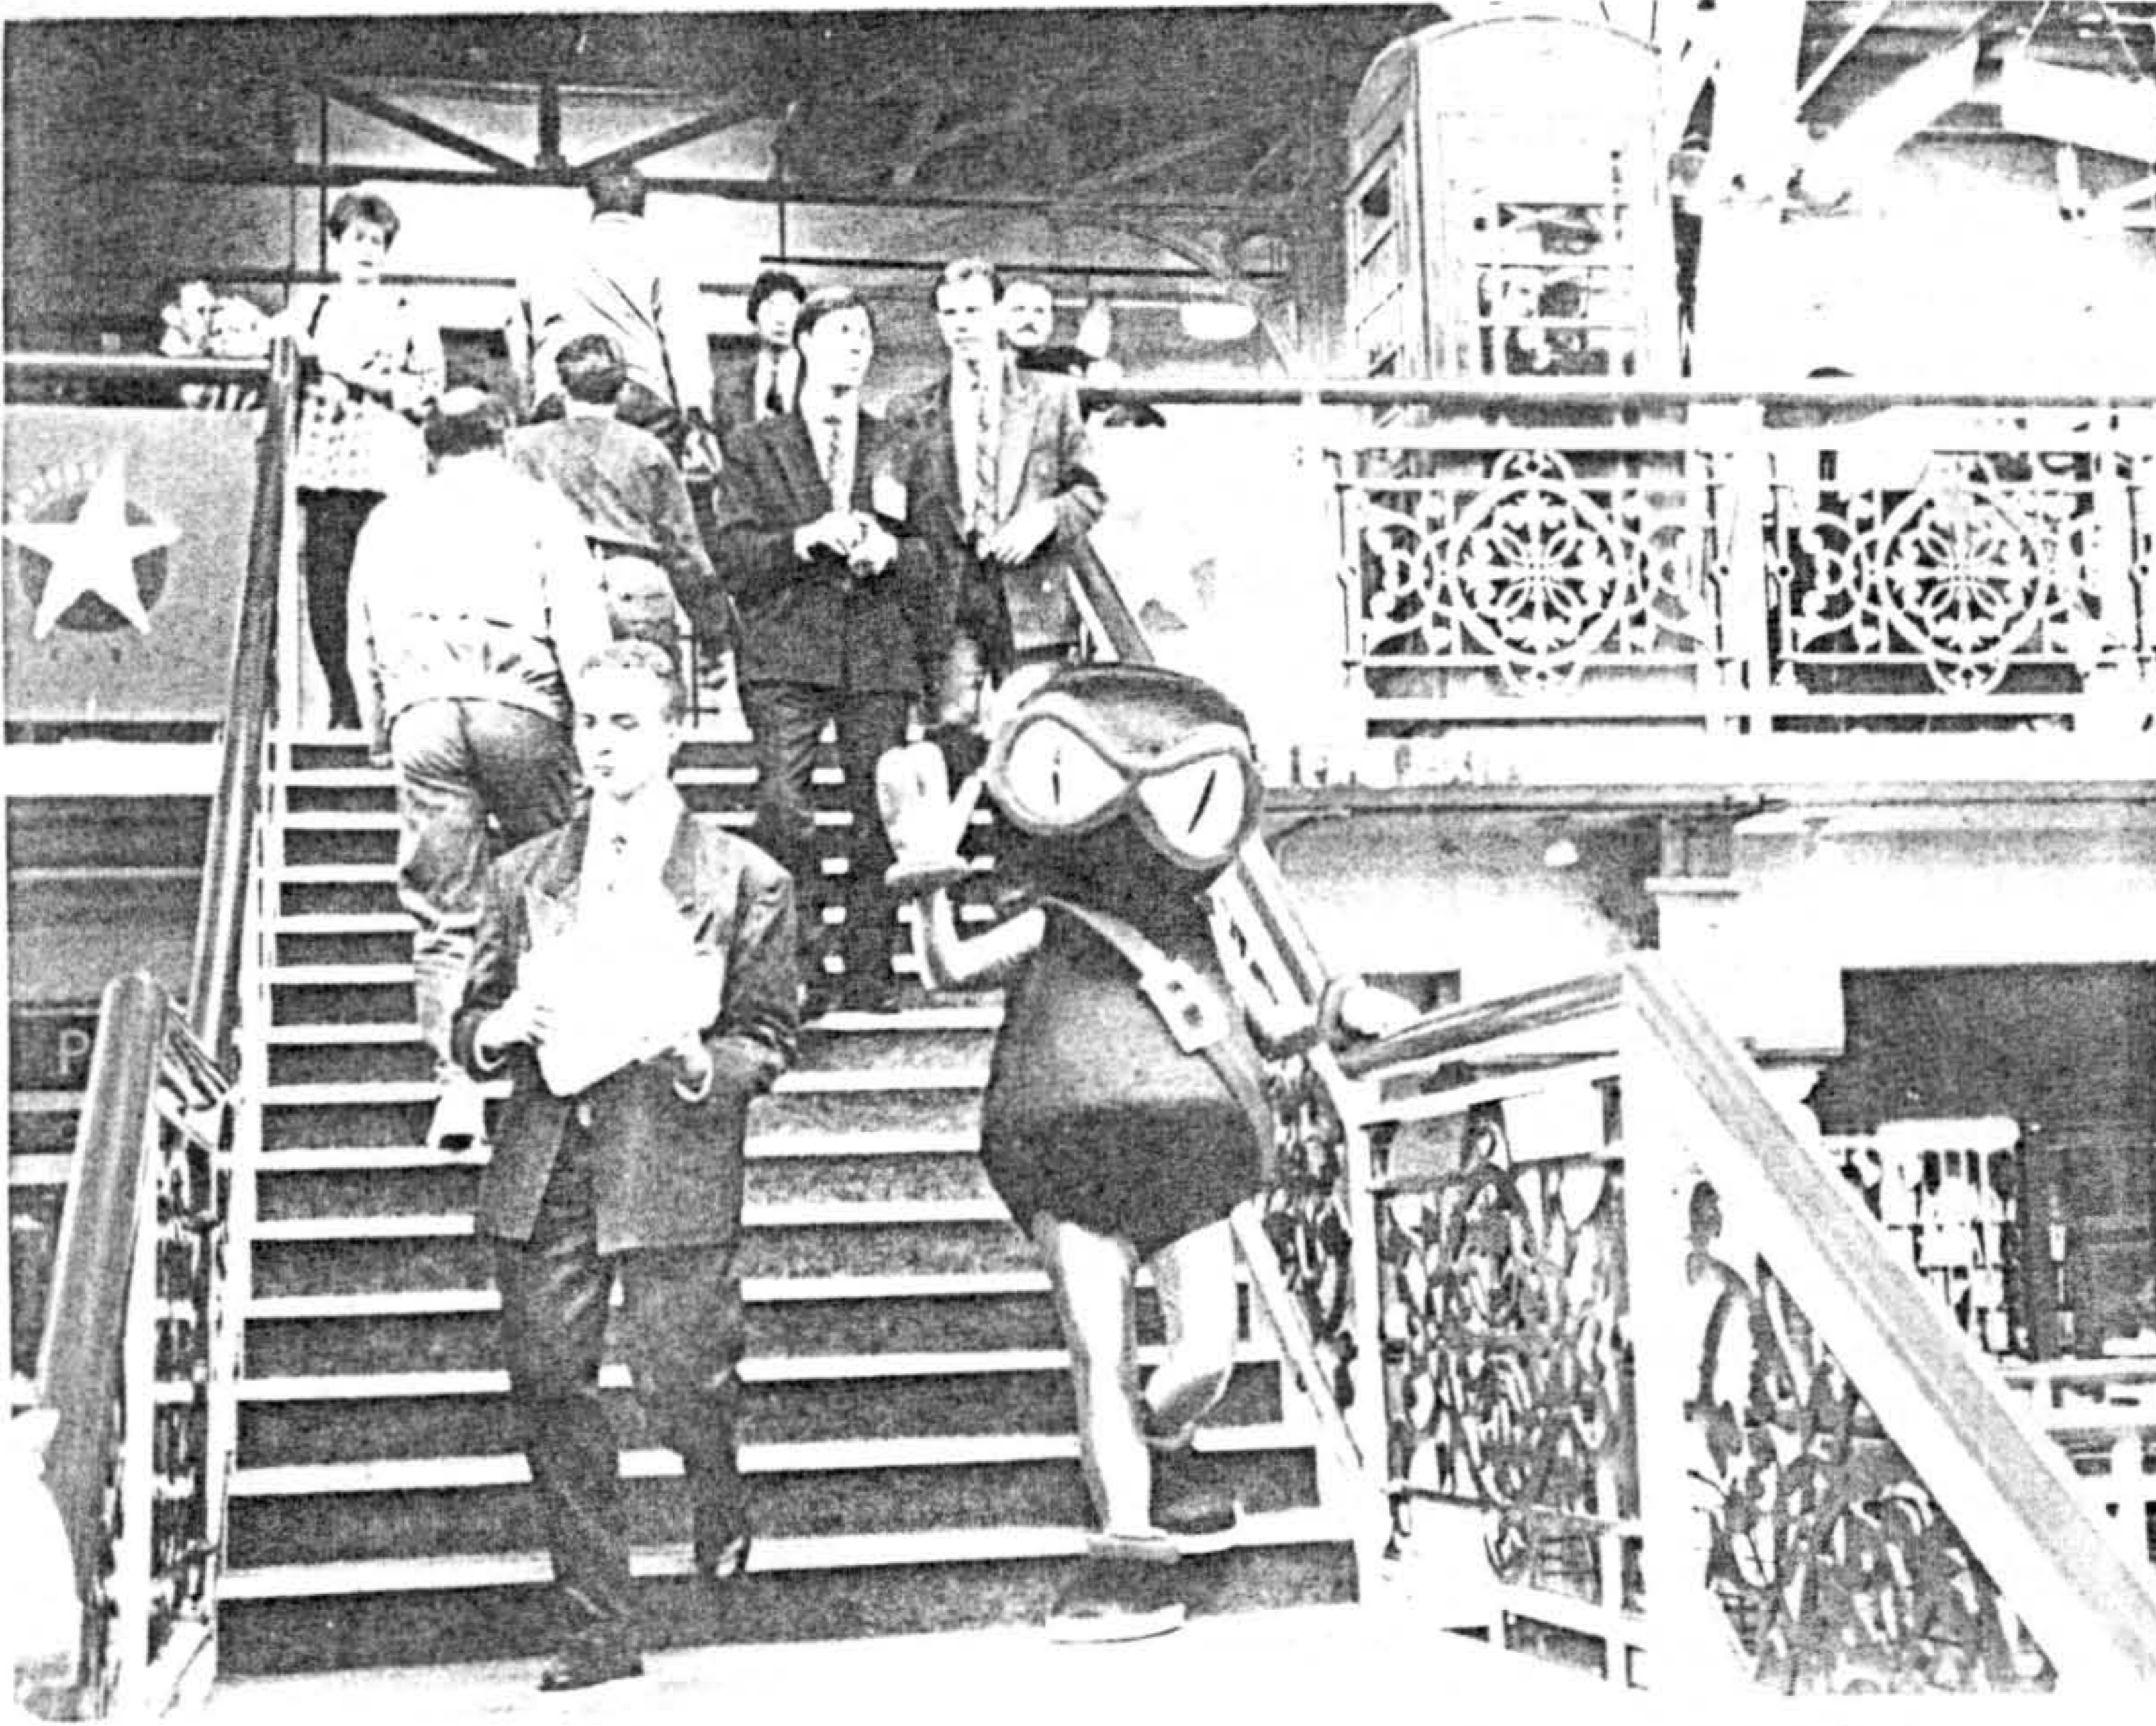

let most of the other guyz again. Around 5 PM Kid, Ninja and Johan had to catch their plane so they left us !!! As we were hungry (Especially Newscopy) we wanted to grab some food! We settled a meeting with everbody else at 8 PM at Leicester Square !!! We went to Deeppan, a pizza house, where you could eat as much as you wanted and could for only 2,95£ (about 5 US \$ ed.). While eating Tronic all of a sudden realized that he left his towell in their previous hotel. While he went away to go and get it Newscopy and I went to Victoria Station to get some more beer. When finally Tronic showed up WITH his towell we headed for Leicester Square (The smart ones will realize it was already around 8 PM by then ed.)!!! Ofcoz we were the first followed by the TRC guyz and Freestyle !!! No sign of the RSL's (Who said they were the un-beatable number one???? ed.). Finally after a loooongggggg delay they showed up. We were missing BOD, so we called him up and we got a weird message saying "The other person is currently engaged on sexual activities on the other line"... Well guess we know what that means... hahahahah!!!! We went to Soho and aksed a REAL Bobby (An English policeman for the demented ed.) the way to a cool pub... As he was very kind he showed us the way... AAAAahhhh Booze time AGAIN... Pretty cool place, nice muzak and lotsa (Lotta again ??? ed.) drinks!! Some people were already getting real drunk (Ain't that right Communist ?? ed.) but as the place was closing at midnight we were kindly asked to get our fucking ass outta there... Then we went to the TRC guyz's hotel where the bar was open untill 2 AM... But first Newscopy, Tronic and I had to meet up with Hookie so we could crash at his place... As we were waiting in front of the Empire/Equinox cinema (It has nothing to do with any Canadian geeks, gooks, salmons or any of that kinda trash ed.) we were approa-

E.T. phone Home ???

Nah... ZOO is back in town

saying 'Yo my man!!!'

Mario (not to be confused with DEFF/AVT ed.) saying 'Thumbs up and keep on doing that great mag of yours'

Yeah Party-time in London.. From L-R Psychobilly/RSI, HOK/RSI, TRIGGER/RSI
TERMO/RSI in the background, COMMUNIST/RSI and FREESTYLE/AVT

Other pub.. still BOOZIN.. Above from L-R TERMO/RSI, NEWSCOPY/G*P, JRC/TRC,
FREESTYLE/AVT, AJ/TRC, CBA/TRC, CASE, JORDI/TRC.. Below from L-R we have
PB/RSI in arms with HOK/RSI and TRIGGER/RSI

MEMORY TIME... NINJA, HITCHICKER AND SCORPIE
RETURNING FROM THE STARDOM-CRAZY PARTY '88

The Pirates reveals the real reason why FREESTYLE was kicked out of ILS !!!
Simply because he was kissing too much RSI ass...errr i mean feet.
And ofcoz JORDI is making an offer too..

Most of the guyz at the Trade Center entrance.. Top from L-R COMMUNIST/RSI, TERMO/RSI, NEWSCOPY/G*P, BREAKER/RSI, RICHIE/AVT, TRONIC/ILS, CASE, AJ/TRC, TRIGGER/RSI, HOK/RSI, FREESTYLE/AVT, CBA/TRC.. The guy with his back to the camera is no-one else but yours truely Solar/F4CG

The entire bunch getting a sun tan and spacing out are from L-R CBA/TRC, CASE, JORDI/TRC, FREESTYLE/AVT, COMMUNIST/RSI, in the back is BREAKER, RICHIE, NEWSCOPY/G*P, NINJA/ex-F4CG, KID/ex-F4CG and JOHAN

From L-R Richie/AVT, FREESTYLE/AVT and COMMUNIST/RSI.. COMMUNIST saying to FREESTYLE 'Hey if i was you i would kick out those American ILS guyz, admit it they're lame....' RICHIE answers 'Hehehe, Yeah sounds cool'

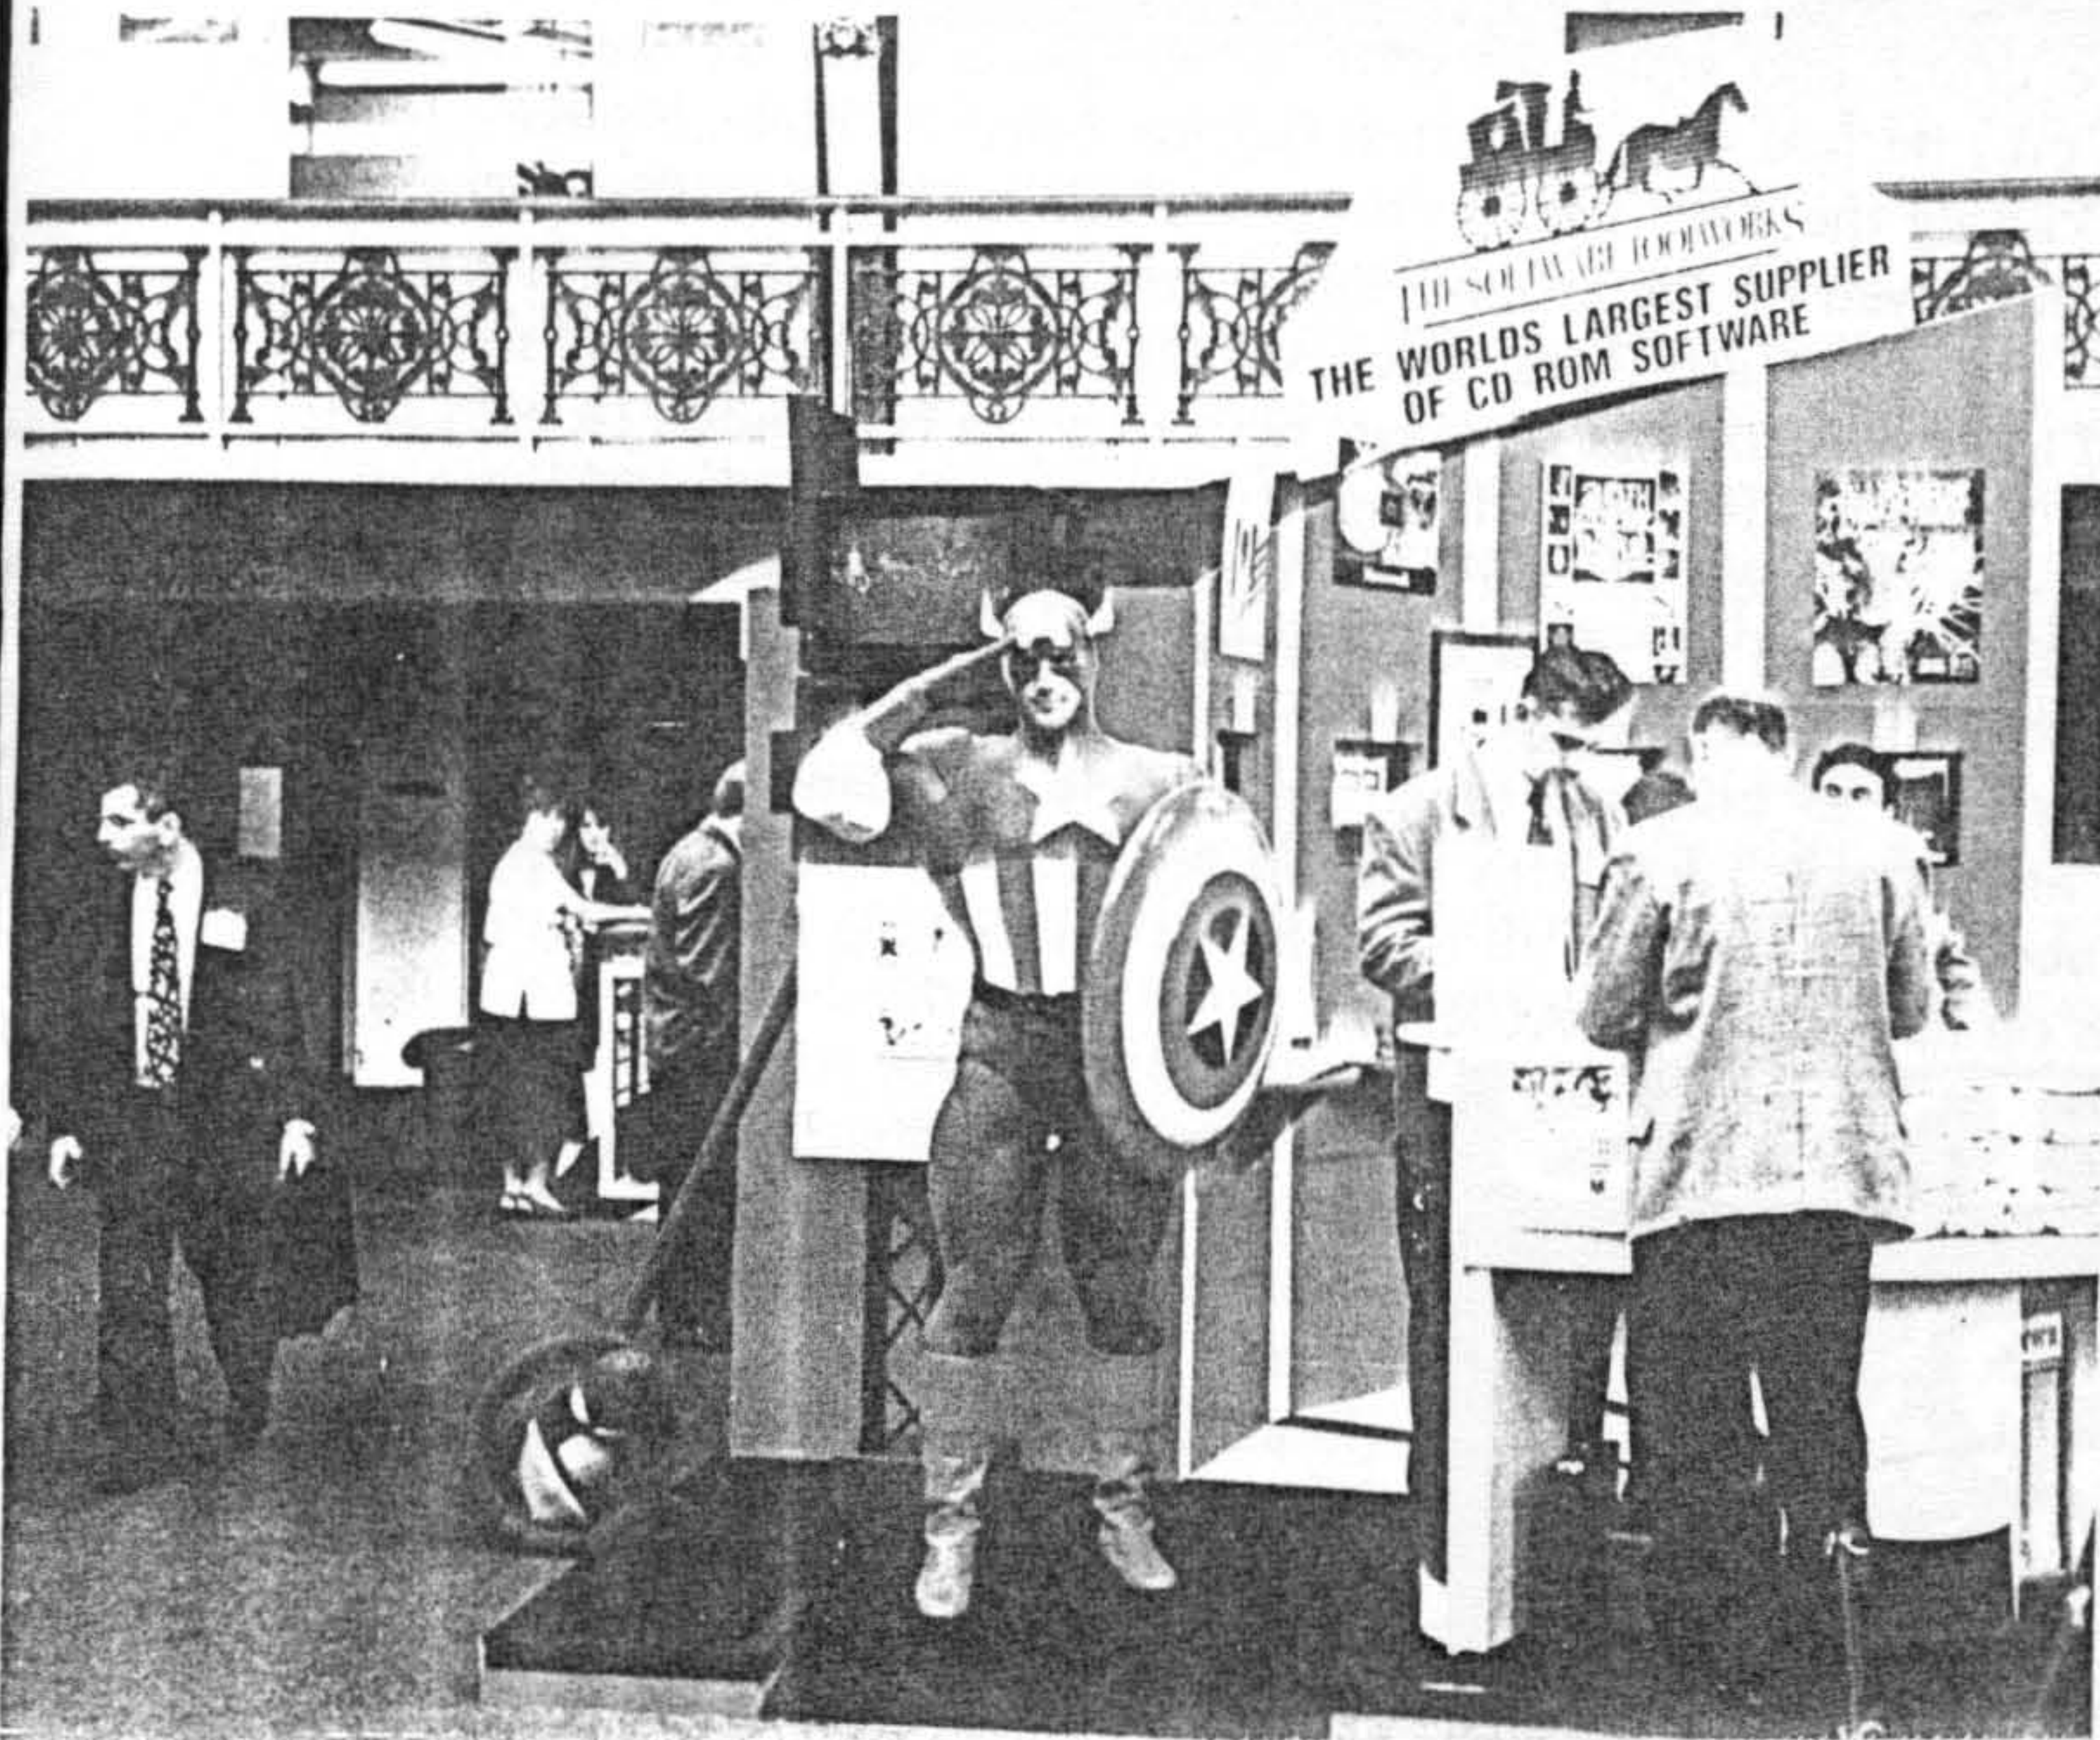

On this unsharp photo KID/ex-FICG looks way better than in reality and JOHAN seems to be agreeing with that...

No idea who that is... but as we didn't spot SOLAR/F4CG it just might be him in disguise....

Captain America defending the 'real' home-country... Don't worry he's not really that muscled as it shows on the picture.... You Fake !!!!!

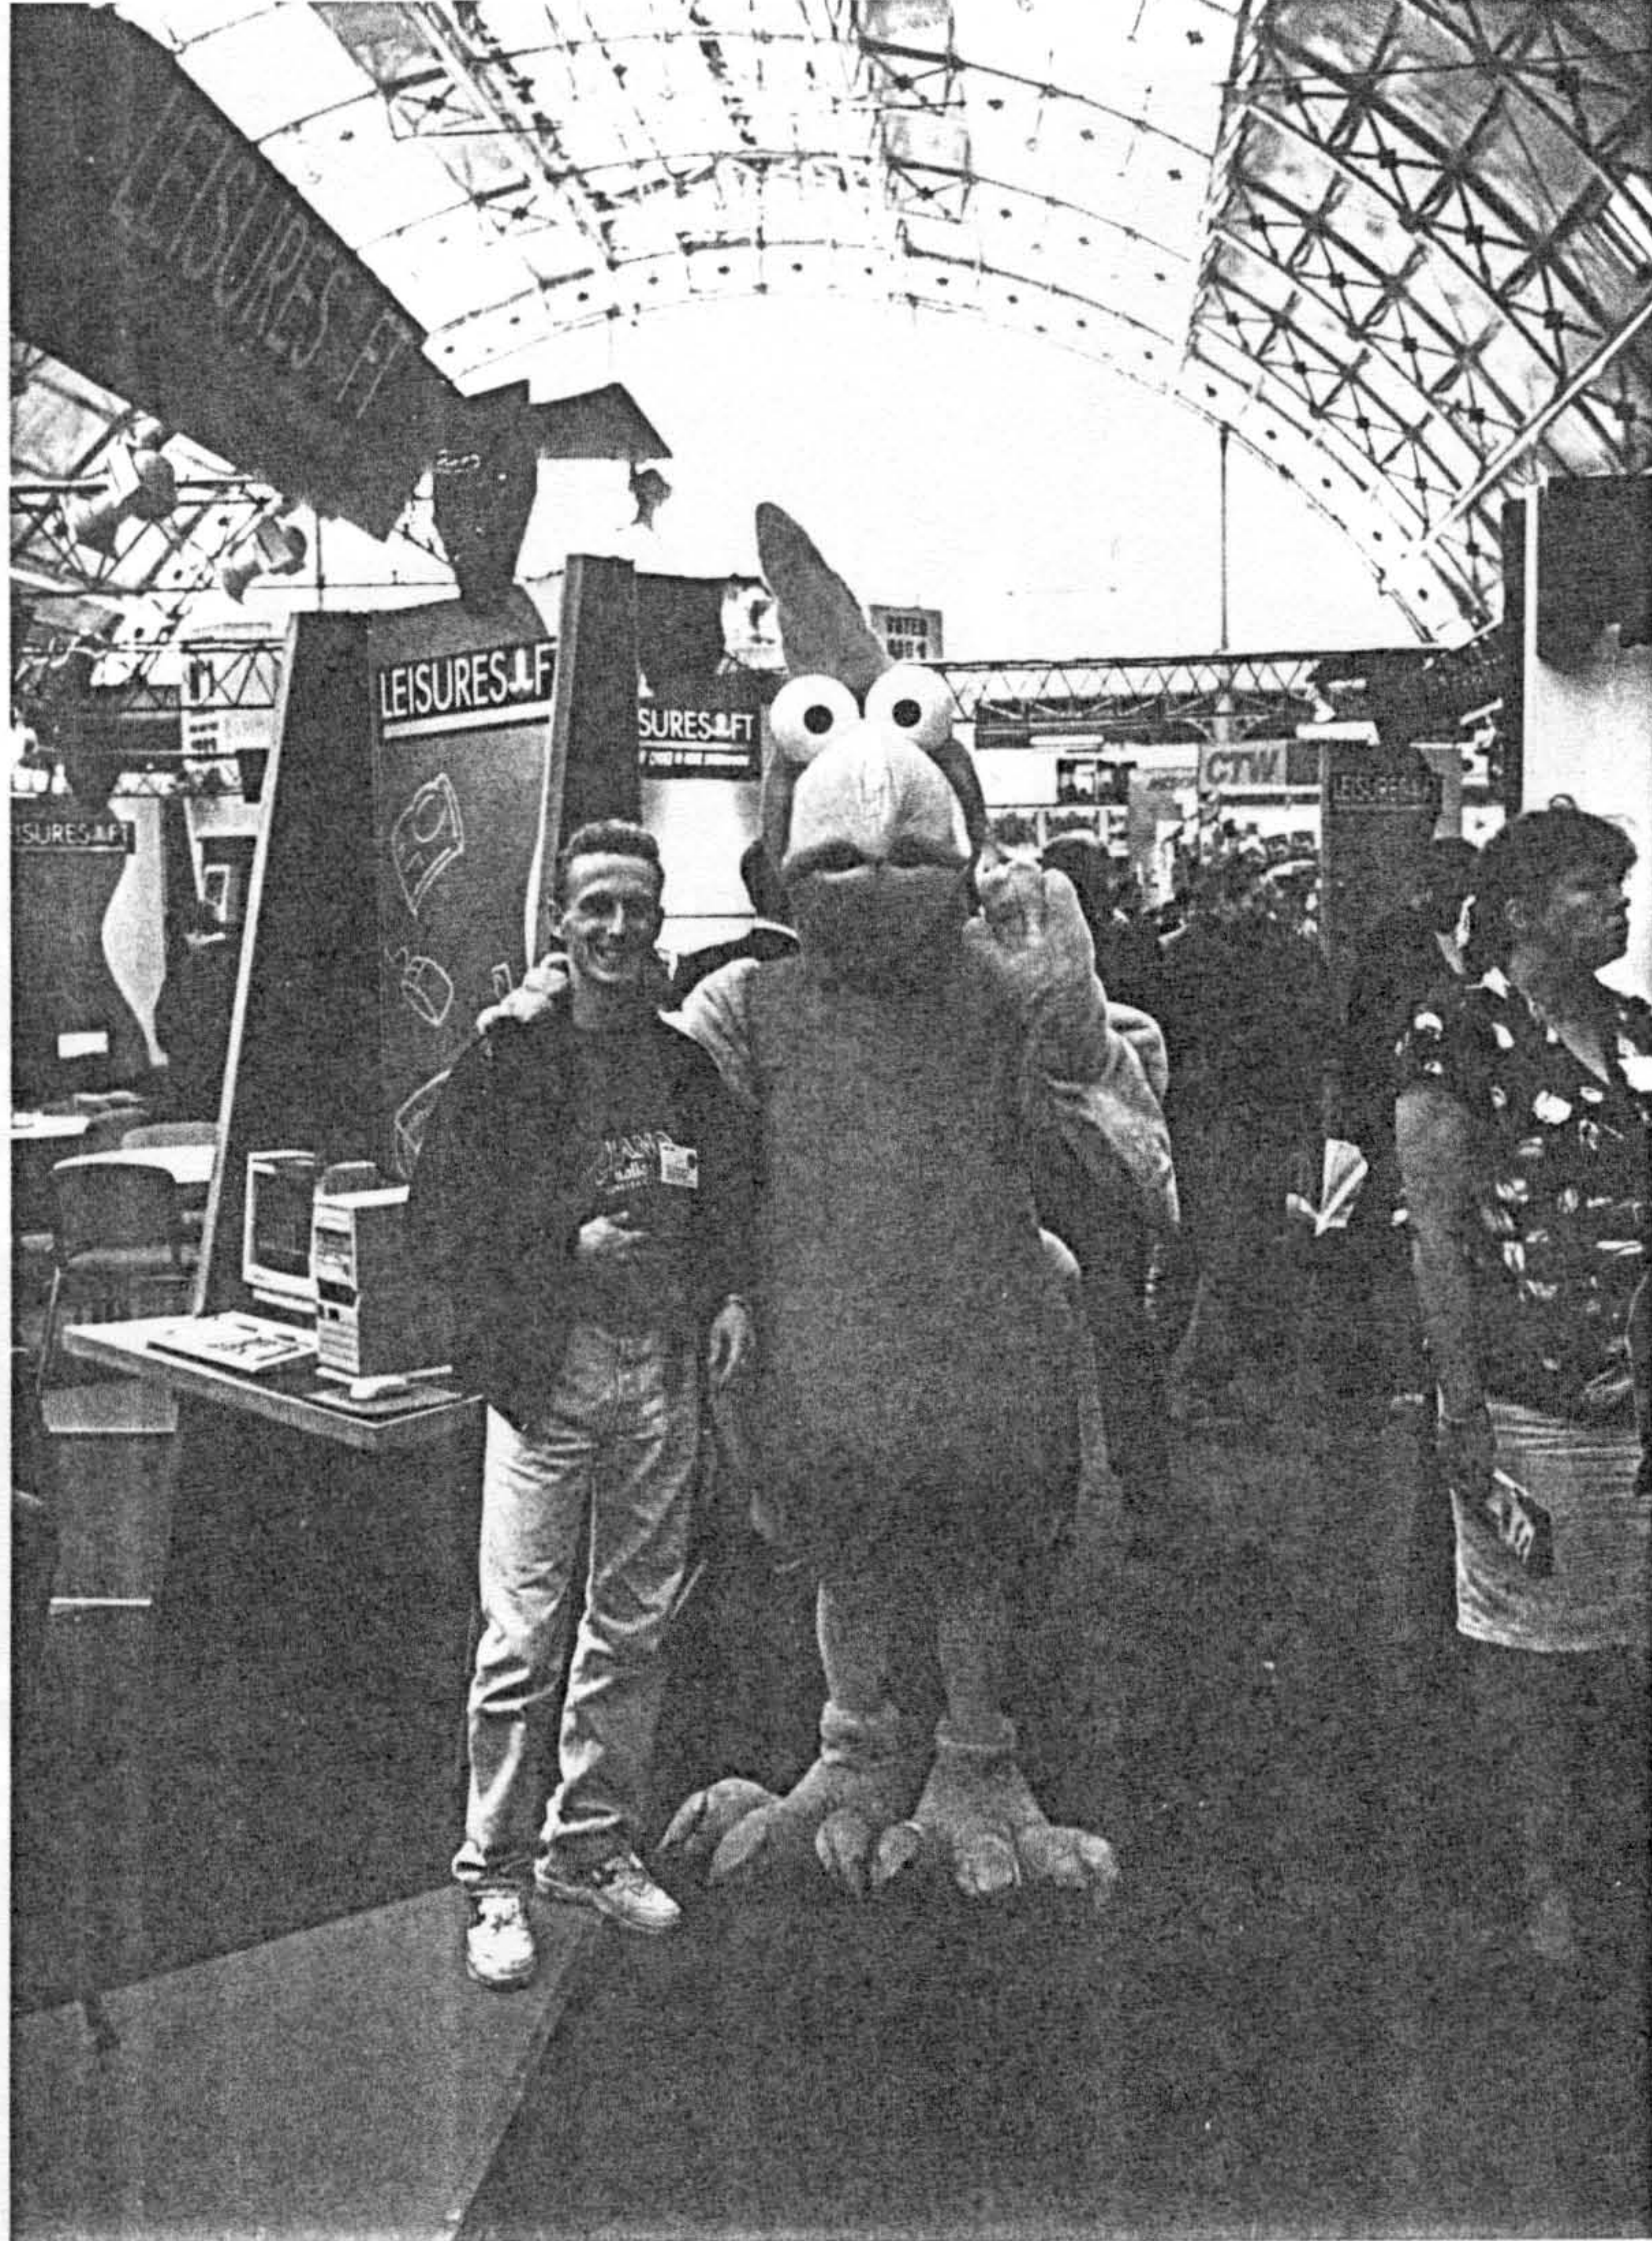

ched by a nice oriental girl asking if we were waiting for someone???? Shit yeah we were, but it turned out being Hookie's girlfriend... Arriving back at the bar Communist was even more drunk and while we were there (guess what we were doing ?? BOOZIN OFCOZ ed.) he had to be escorted outside twice !!! Puke.... puke....barf..!! When the bar was closing the TRC guyz went to bed and we went to Picadilly Circus, pissed in the trashcans, layed on the ground and nearly made a drugs deal!!! When we wanted to take off for the Hard-Rock cafe ASTORIA Communist had to carried around and wanted to go to bed (RSI the first, yeah to go to bed hahah j/k ed.) so the other RSI and the Spanish TRC guyz followed his example. So there was nothing major to do then go to Hookie's place !!! We crashed at 4 AM and we woke up at noon when we quickly checked the show once more. No sign of any of the other guyz as they were probably still sobering up.. hehehahaha So i took some more pictures and then it was my turn to take off to go and catch my plane! So saying bye to Newscopy, Tronic and hookie i left with grief in my heart. Tired but happy as once more it had been major fun. And like all the others i am looking forward to next year. You can bet ya ass on it... I'LL BE BACK....

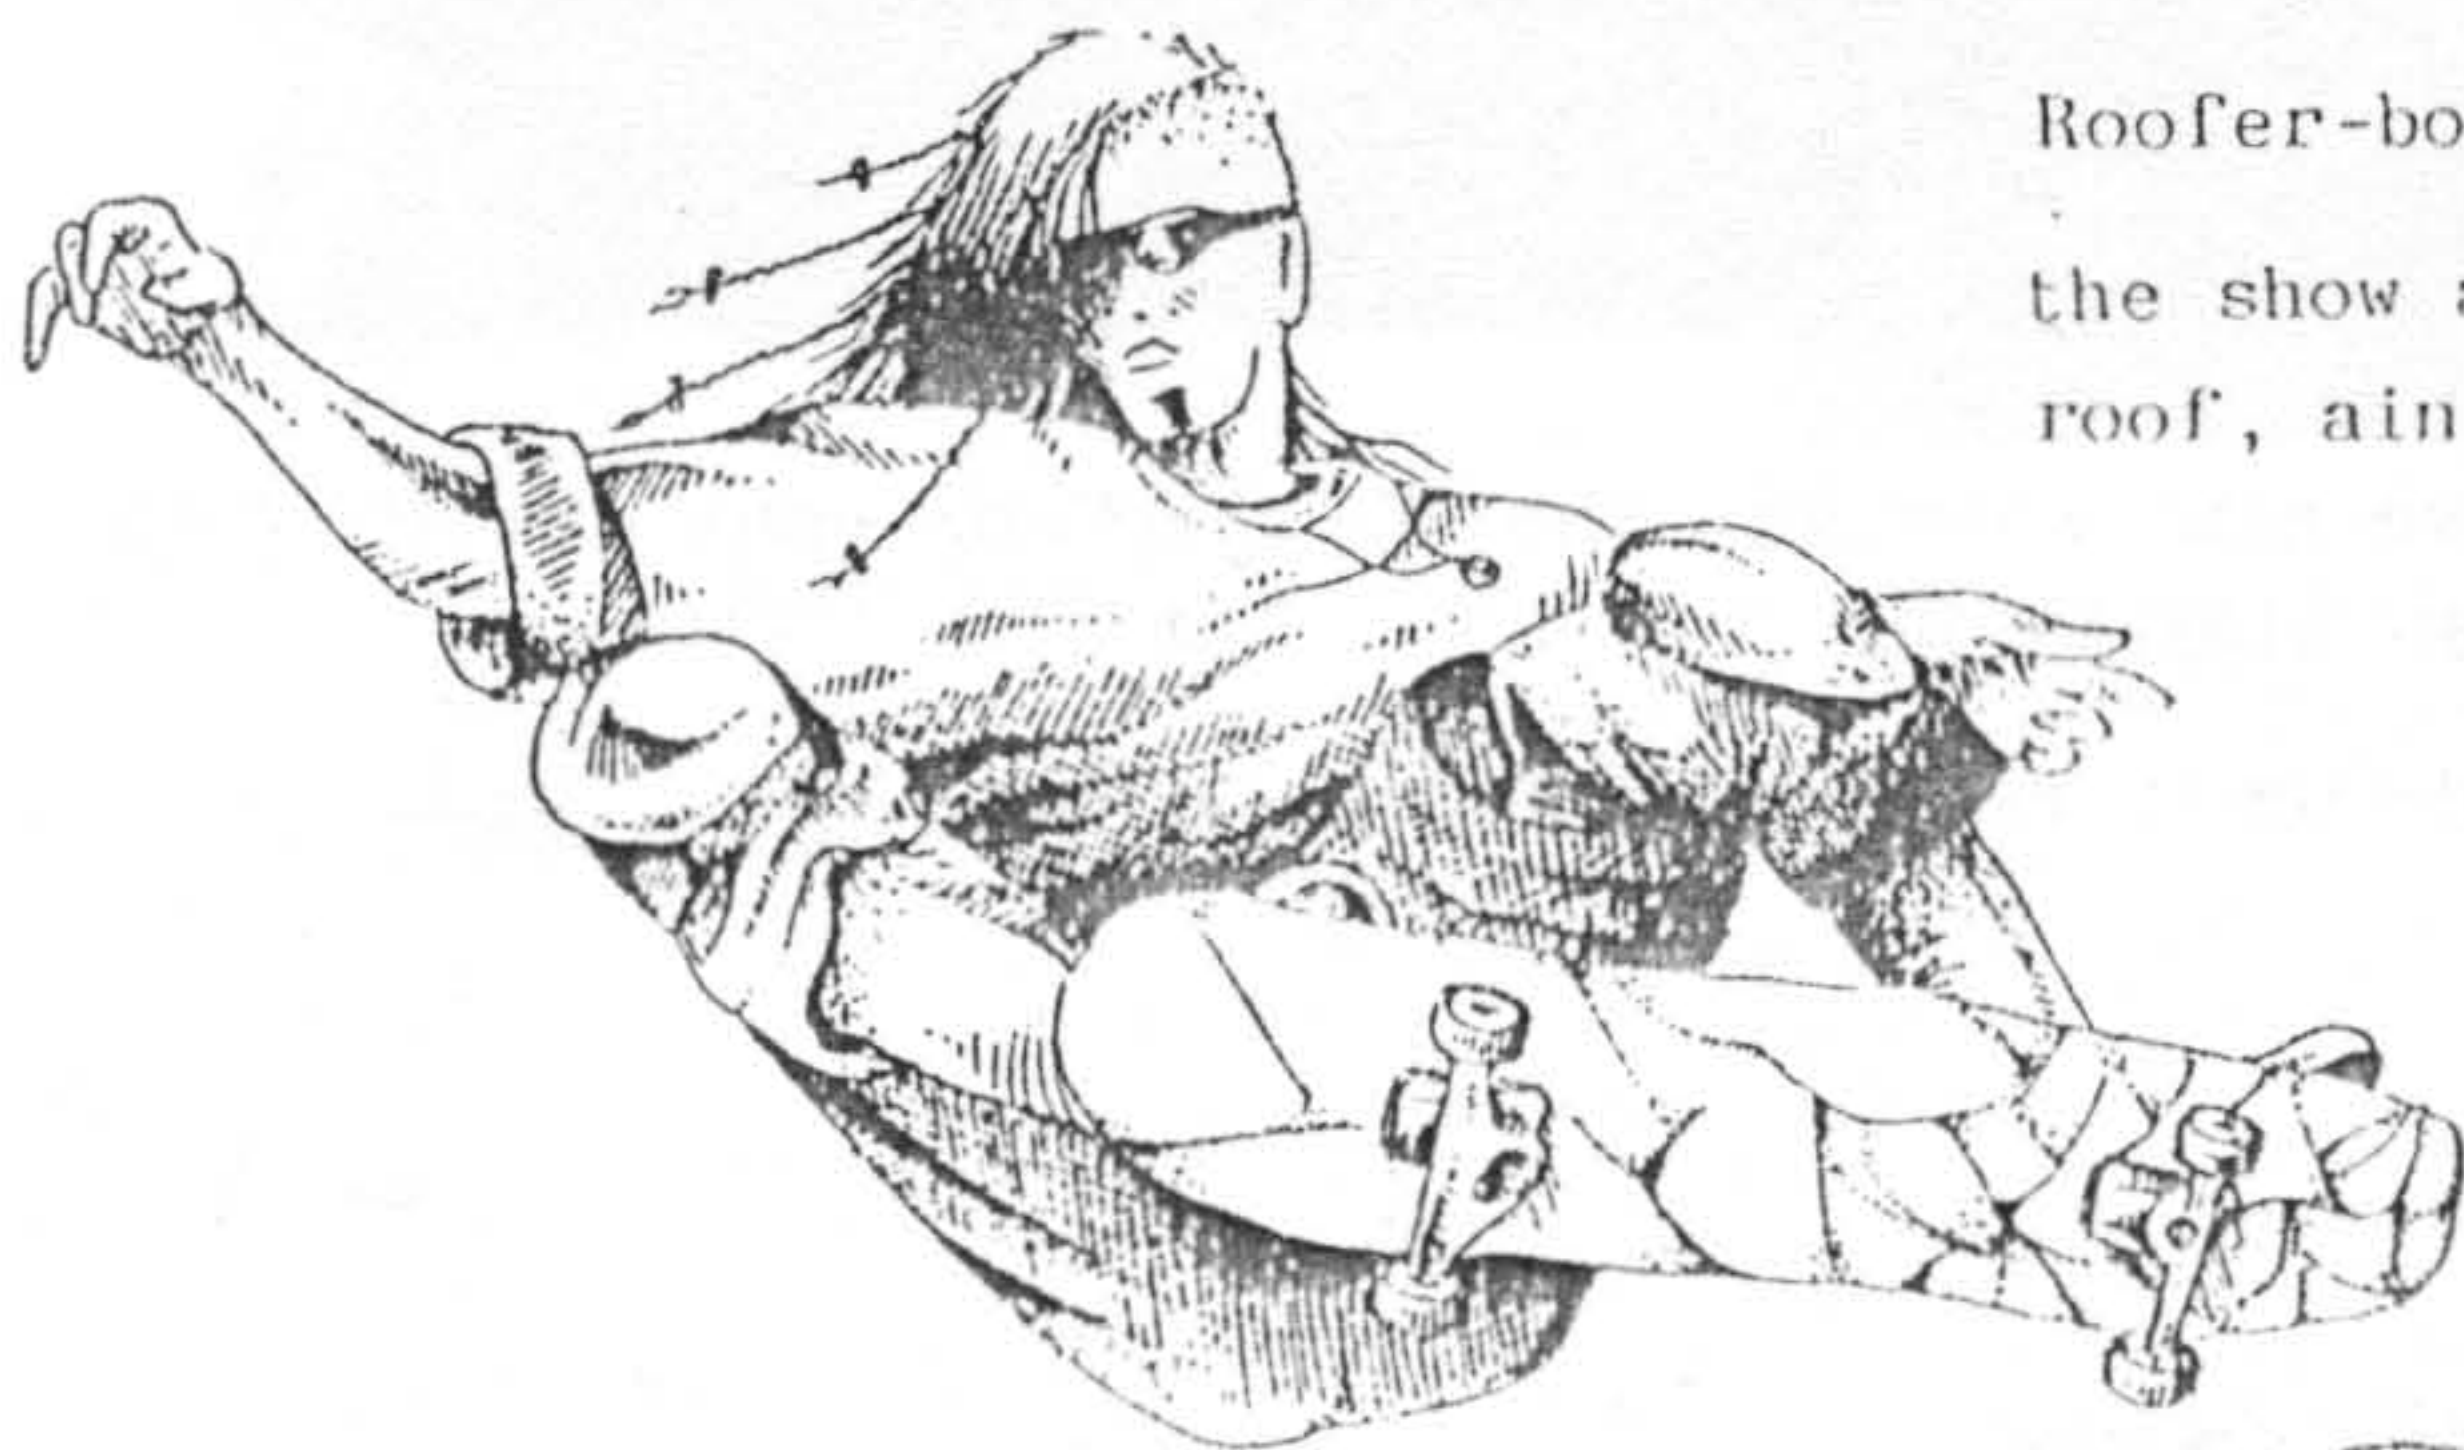

Signed Solar/F4CG

Roofer-boy RICHIE/AVT and his new girlfriend were at the show aswell.. Guess what.. They met on a London roof, ain't that romantic....

About the only remaining

Kid's tech corner

This article had a long way coming.. normally i would have explained here how to add a parallel cable to a 64 drive.. but due to lack of time and the lenght of the article i skipped it.

Reason for this corner is to share tips & tricks about hardware with the rest of the crowd.. if you need practical advice about modifying your hardware , just write to the pirates staff about your needs.. if i can help you out and the feature is interesting enough to share it with the world we will print it..

if there are still guys out there without a parallel cable hooked to their 64 drive i can still make that famous article..

next issue of pirates will feature a few schematics of common used connectors (like scart..) and gender changers (like null-modem..).

Since there is a lot of new hardware coming out like the 3DO and Jaguar and most of that hitech stuff is ntsc at the moment you could have problems hooking it up to your TV or monitor..

So write about your hardware problems and we will try to help you out..

But , don't ask silly questions like how to upgrade a 64 to a snes etc.

Another item will be covering the best settings for highspeed modems..

It is up to you , dear reader , to get this corner up and running..

Send your questions to the pirate staff or leave mail on the elite bbs WE are calling..

CRUMBSUCKER AND RADAR
(FUCKIN' WIMPS!)

COMMUNIST/RSI like we know him best..drunk or stoned..Here he was VERY drunk
What?? You want more Snake bite... hehehe

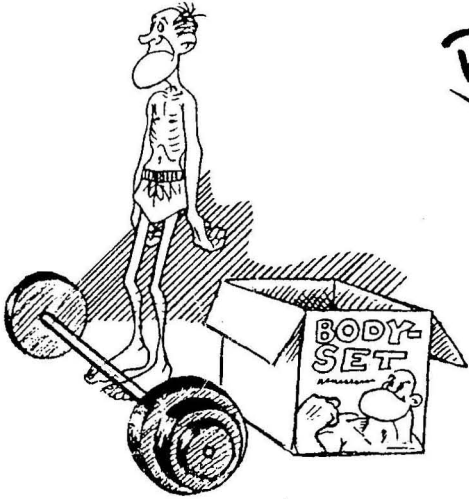

An over-all shot from the ECTS Show '93

These three low-budget crackers at the Zeppelin stand are from L-R NEWSCOPY/G*P, HOOKIE/ex-EXACT and TRONIC/ILS

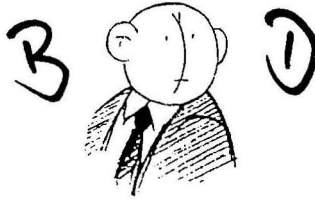

DEFF'S HORROR PICTURE SHOW !

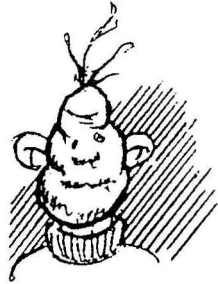

Why did this issue of PIRATES get delayed over and over again ??? Simply because it took us damn much time to ravel all around the world to meet YOU..... Certainly we shot some funny pictures on our tour. Here are some of the worst!!!!

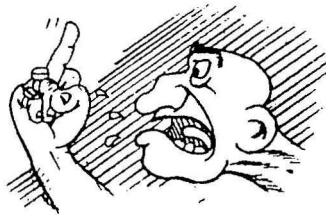

POWERPLANT is training very hard for his come-back with LEGEND

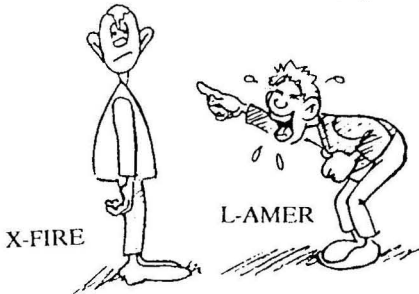

Deserves his handle

You really should stop smoking, POL POT.

Don't say he ain't friendly to foreigners. MAJESTY greeting a turk.

Finally we spotted CROSSFIRE. Worth a laugh !!!

LUCIFER doesn't deserve his handle.

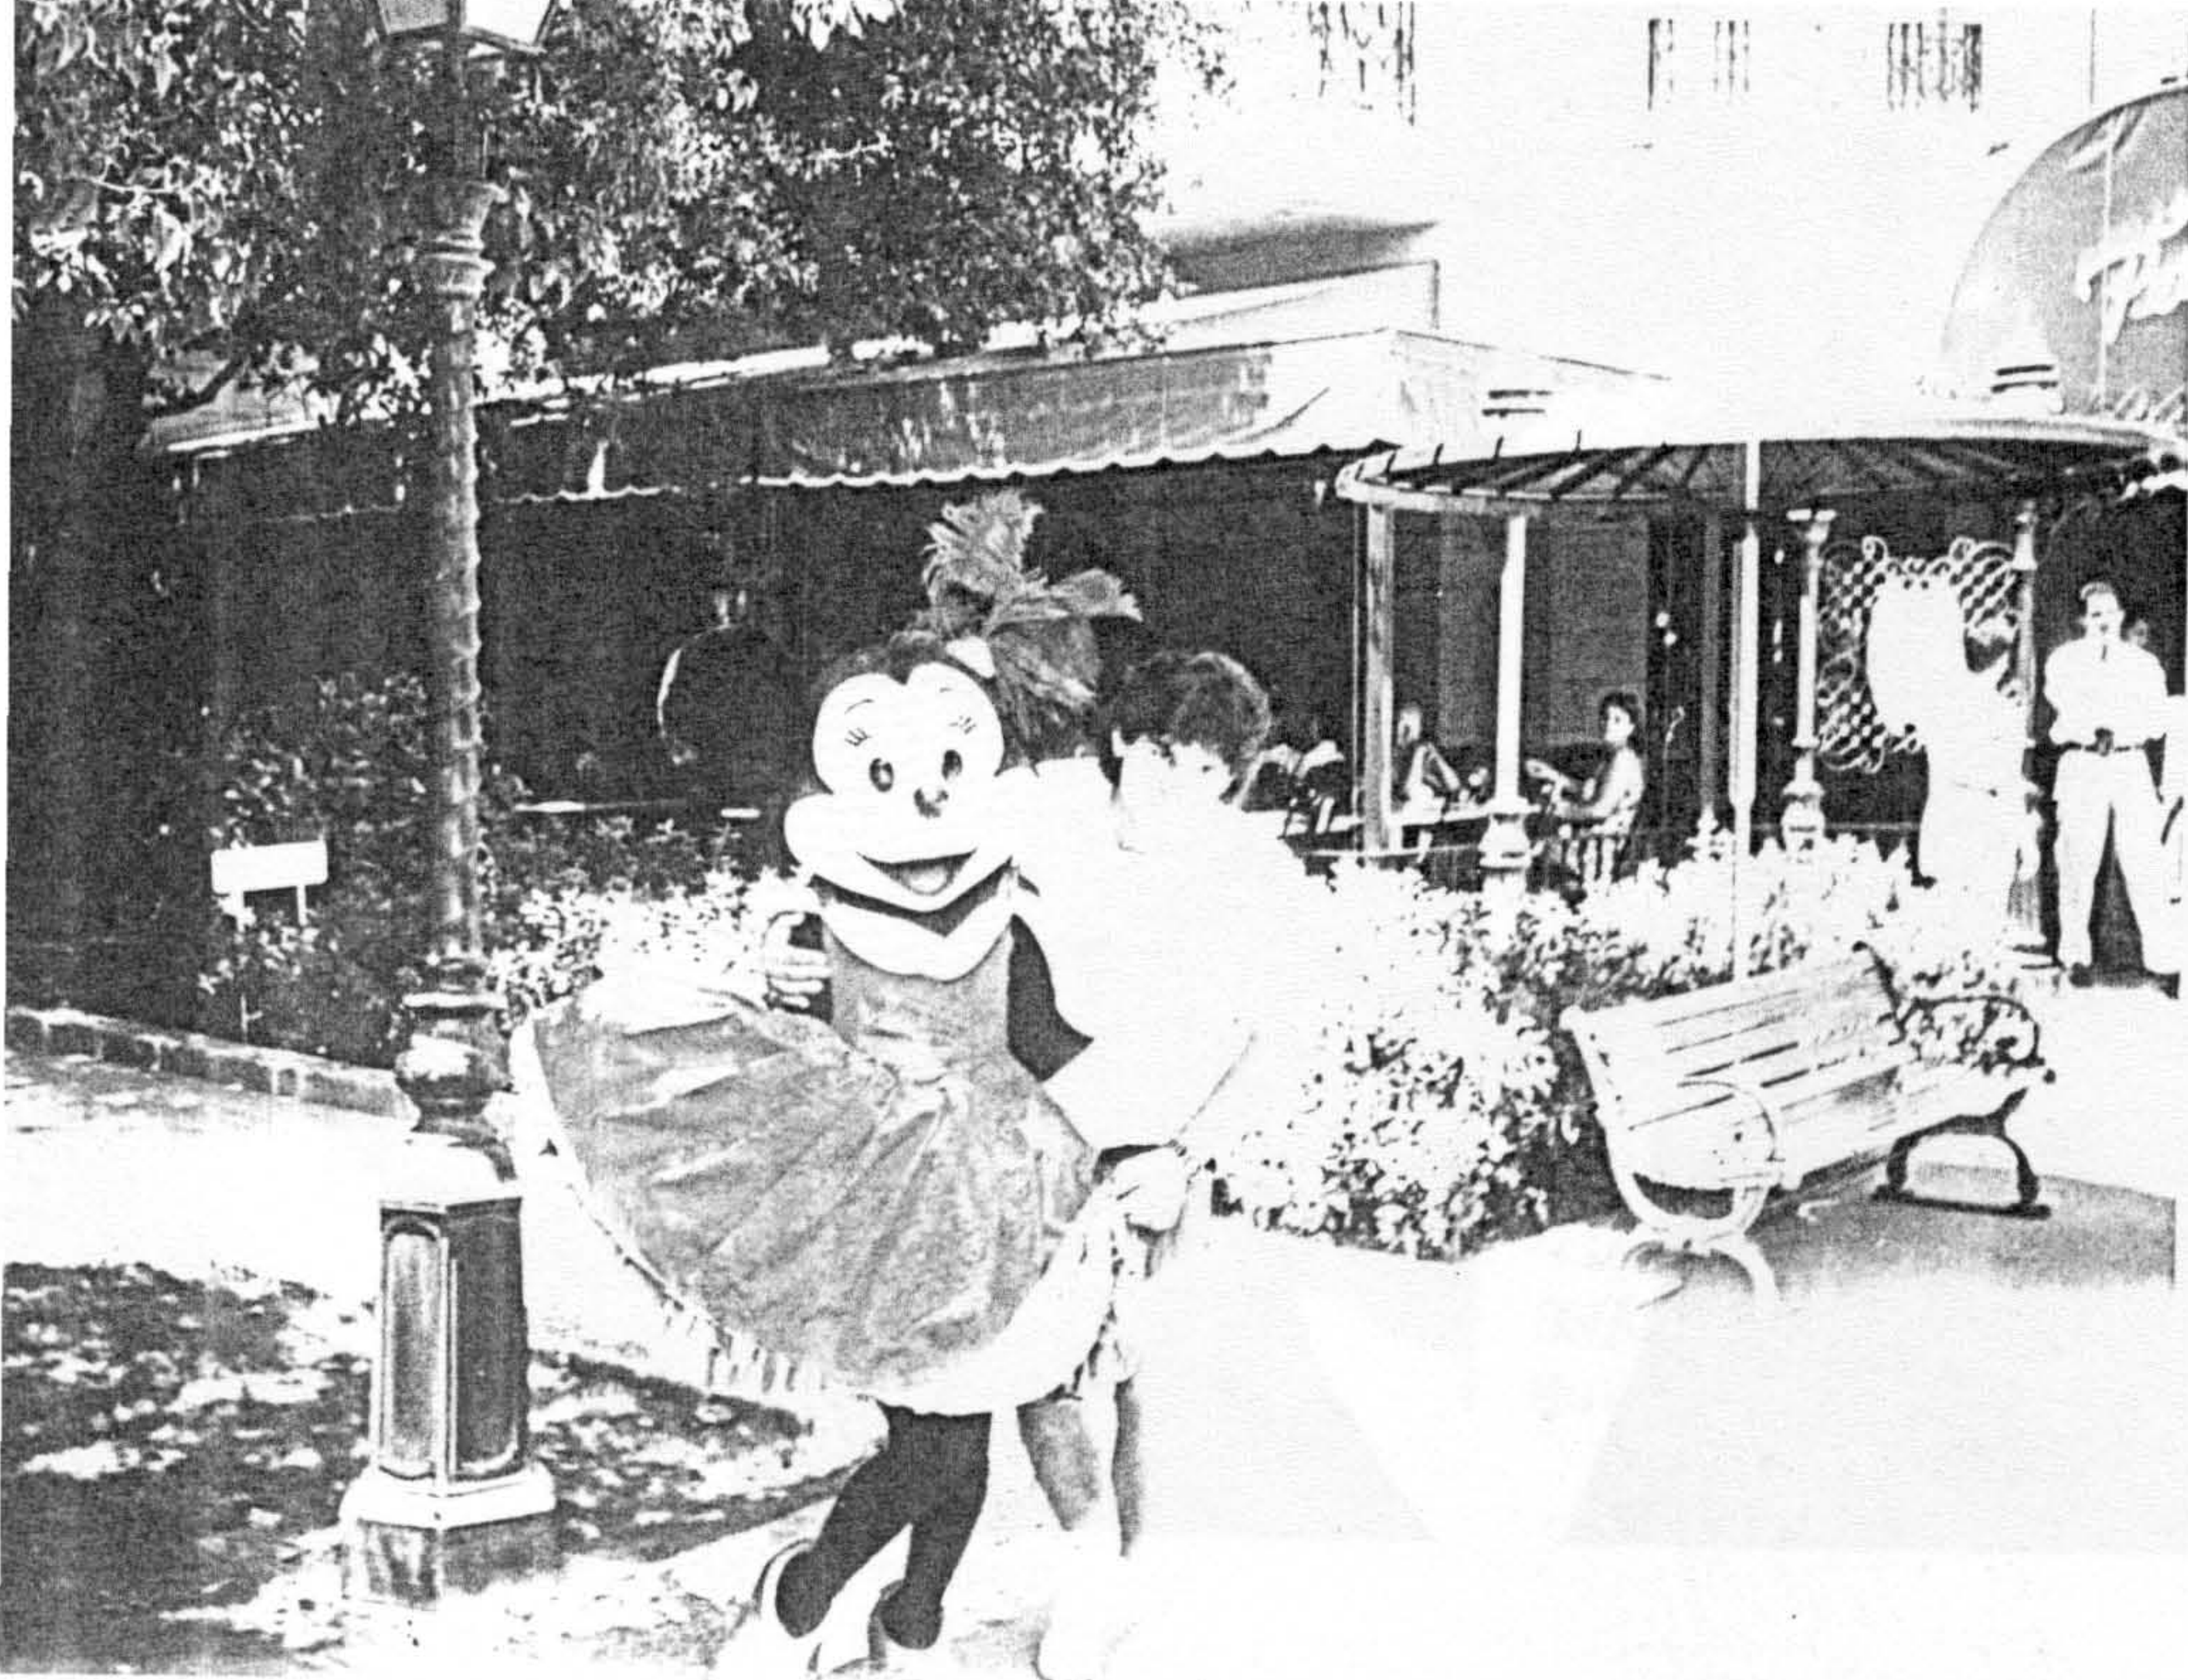

Thats it. Next time we will get you!!!

DEFF is off with a smile

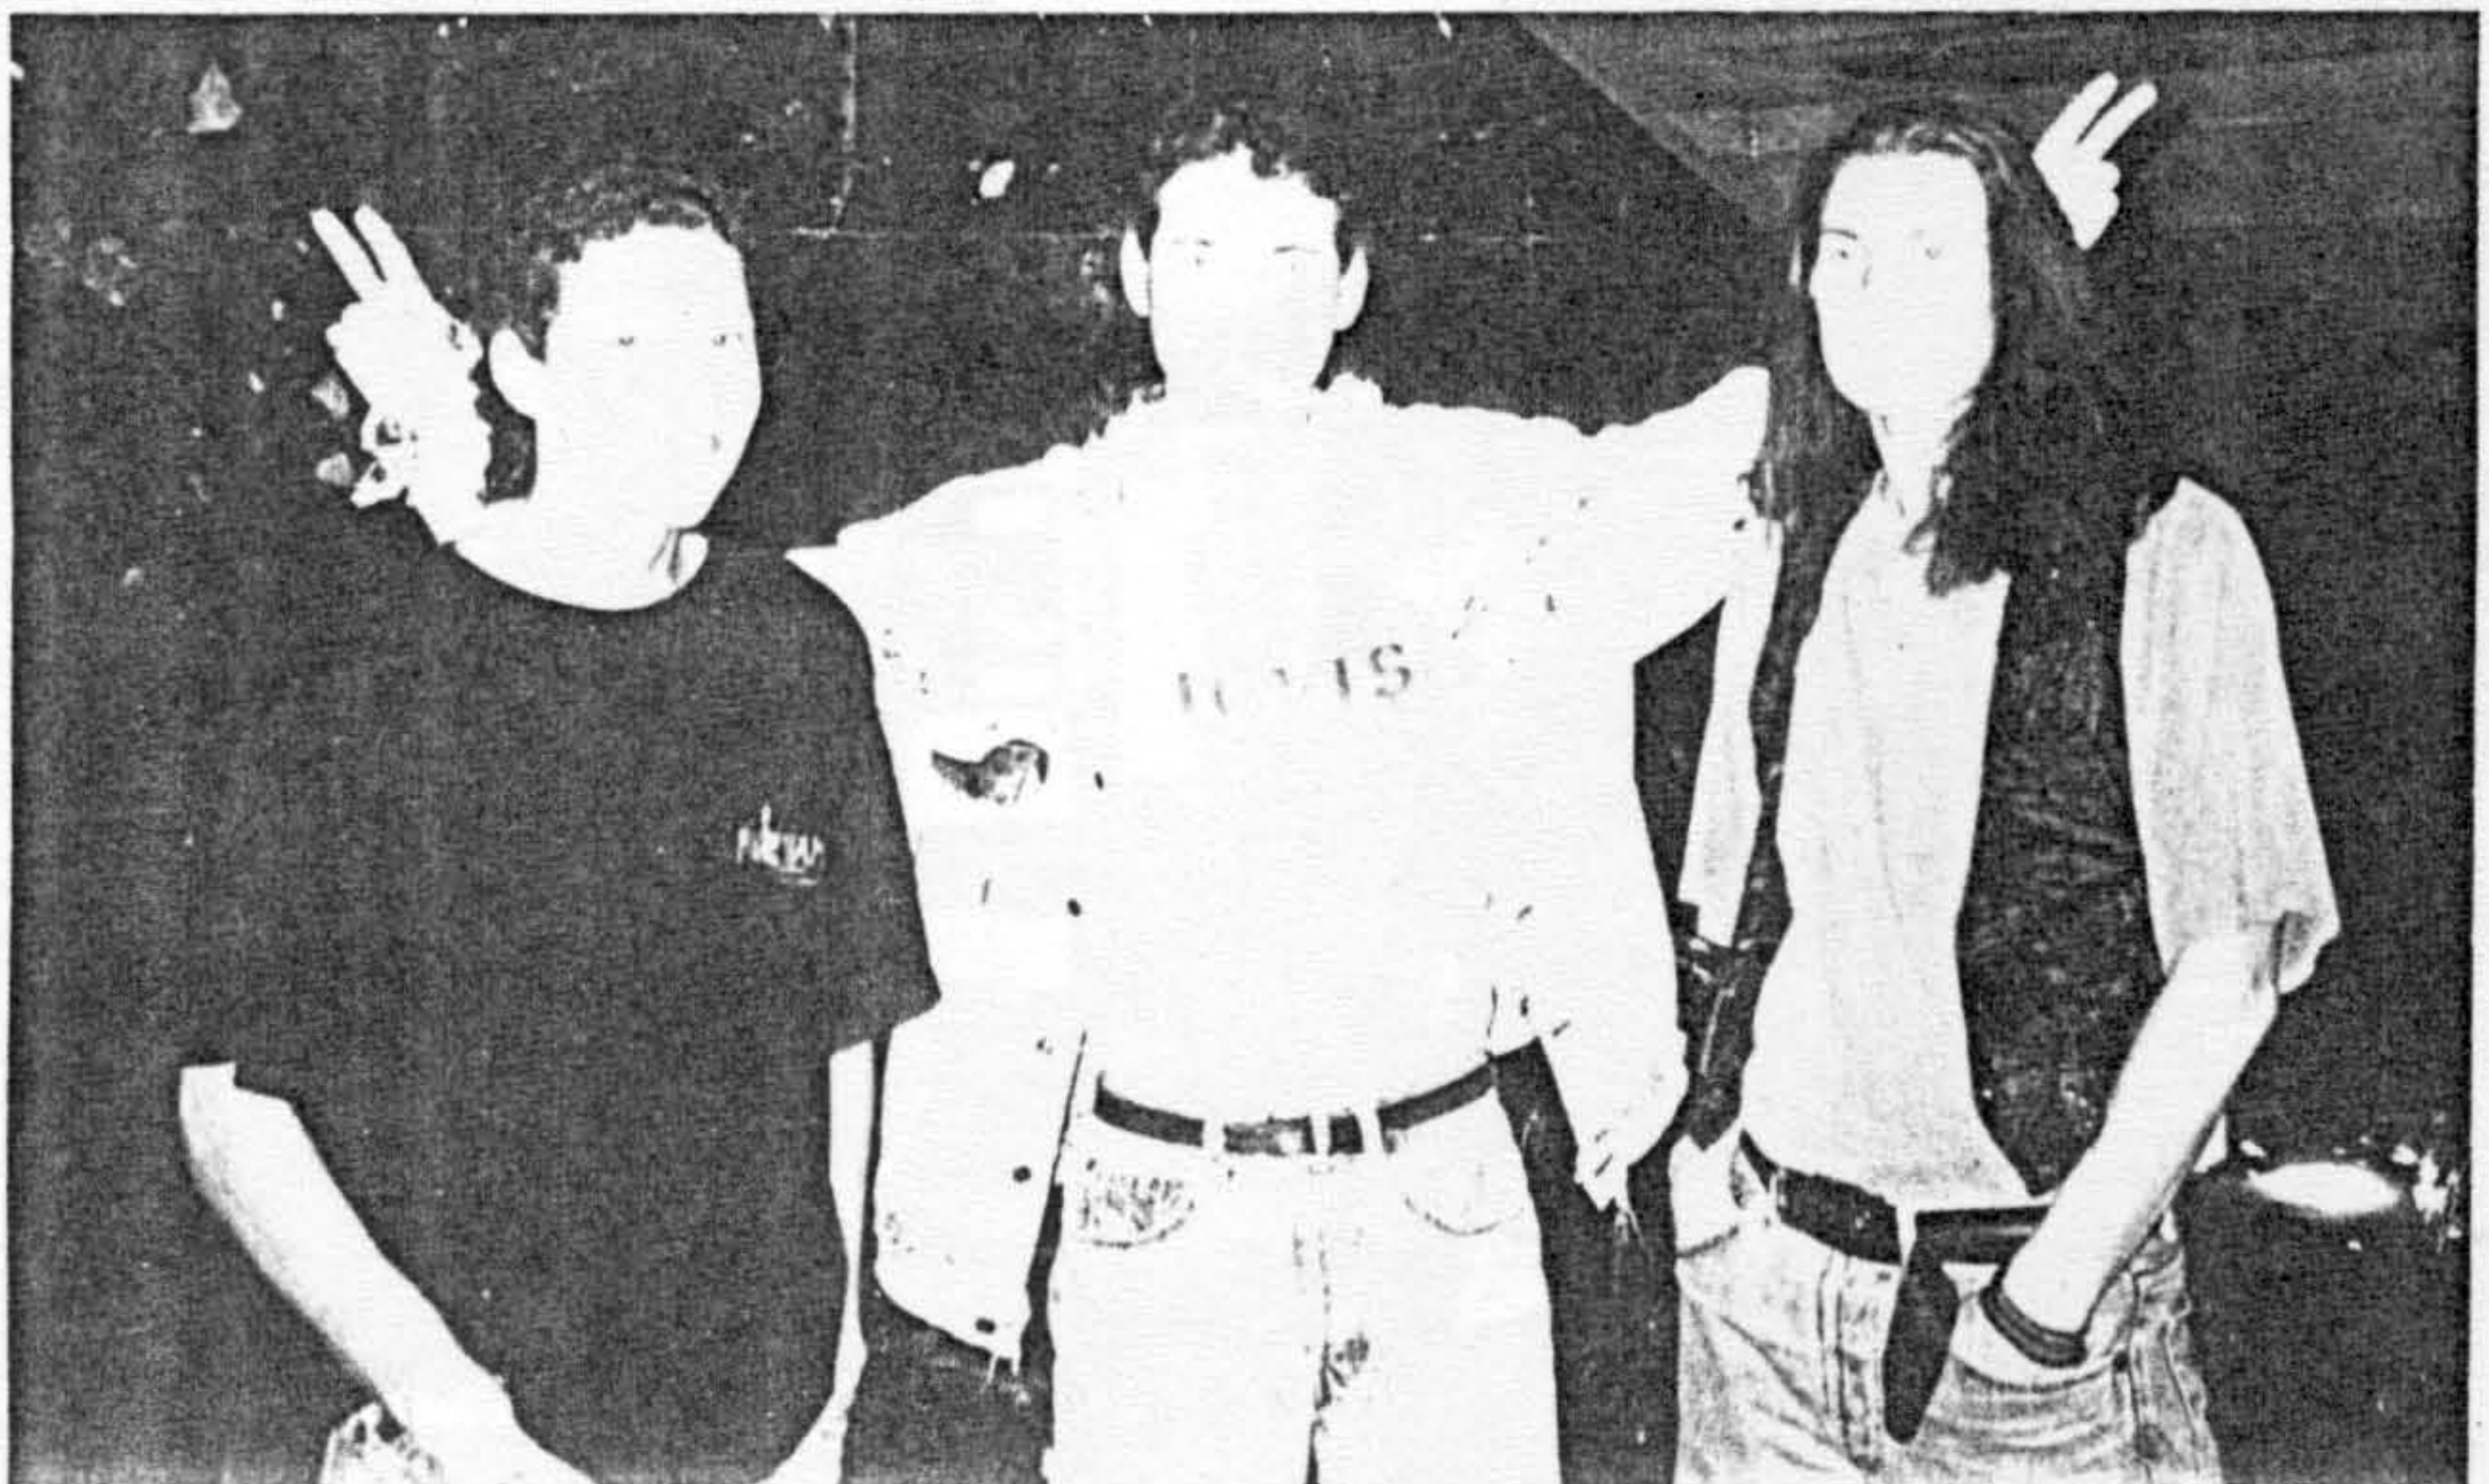

Or is this MAJESTY?? Sorry we mixed something up and we can't remember right now !!!

PRODIGY, sysop from Terminal Obsession, is trying to sneak under Minny Mouse's skirt in order to hide for the camera... Or....Shame on You Arn...

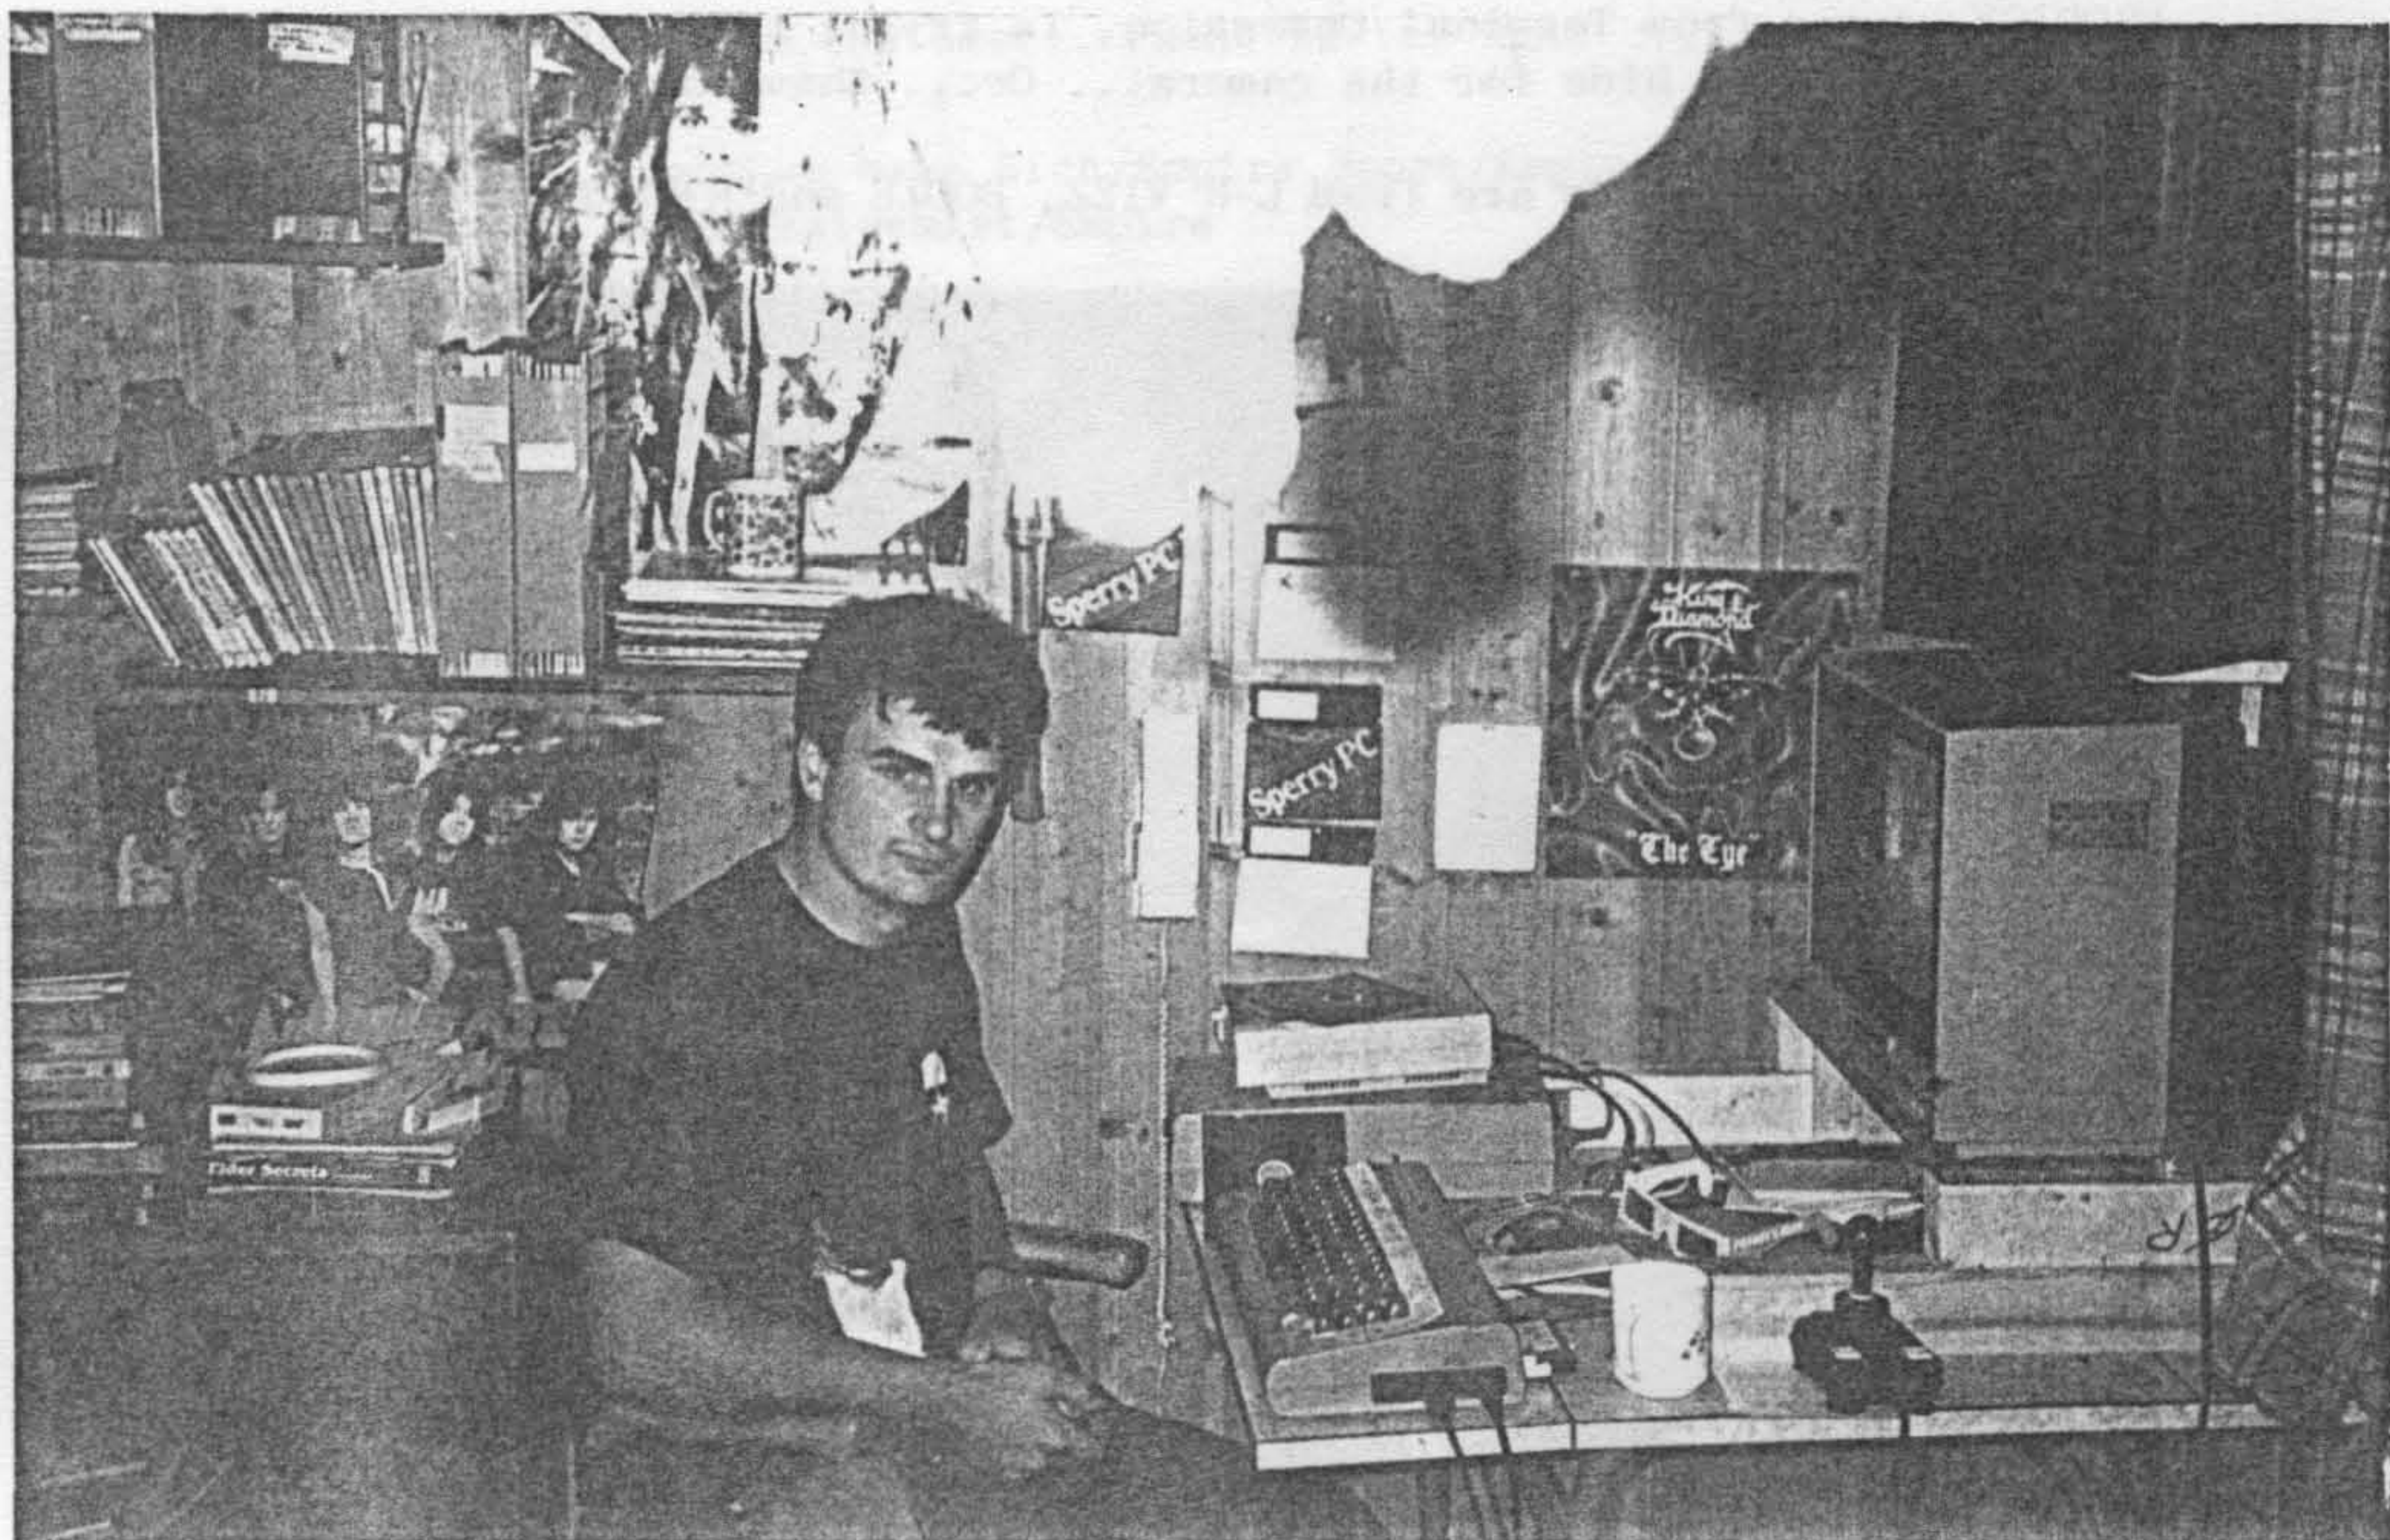

These three young lads are from L-R VIZZ, BOOZE and RICH from EMPIRE

DAVE/ex-LEGEND, ex-TALENT
A very talented coder...

CEASAR/REBELS.. I bet you saw Nightmare On Elmstreet 6... Danzig rules...

HEADLINERS

Nerd-alert, nerd-alert... professional jerkers such as Powerplant, Bod (Alias King Arthur), Moron/SCS, CBA/TRC, Majesty/Talent and others are doing an attempt to rule the party-lines.

Bods' place burned down due to spontaneous combustion caused by heavy wanking ... One night, a week or so ago, Bods' velvet couch caught fire cause things got overheaten....

Currently Kid and Ninja are playing silly games on a SNES....

Thor got hospitalised, he dropped his hammer an his foot and broke his li'l toe.. Another lamer bites the dust....

At the Torhout/Werchter festival in Belgium (headliners was Metallica) Solar nearly drank himself into coma although the beer served was alcohol-free...

In the C.U.Amiga issue of July was stated Sylvester "Rambo" Stallone was going to play the role of Judge Dredd in "Judge Dredd, The Movie". This is wrong. Dredd will be played by fuck-face Powerlessplant.

All attempts to cure Hero's baldness (cfr. Pirates 13) failed so they are trying now to use his pubic hair .. Nice look Harry...

When Solar and Scorpie asked roofer boy Richie to go with them to Soho he came up with the lame excuse he had to visit his girly Jenny.. Just to prove that he wasn't scared he went to Soho last week.....and got raped. Poor wimp Electric/Extend's ha nd had to be amputated cause of some rotting process. (Told you not to mess with those dead corpses !!! ed.) To create gfx on his 64 he now 'ridés' his joystick... enjoy the stick...

It seem hard to believe but the real reason why Scorpie/ex-F4CG left the scene is his new girlfriend!!!! All he is allowed to do are things like 'Sit', 'Lay', 'Rool over', 'C atch' and nice stuff like that.....

ATMOS/LEGEND has been spotted in a Mental Institute !!! Apperently he is tied to his bed and to protect him from mutilating himself they put him in a restraining jacket. All he kept yelling was 'Here what i am not doing know'. He who knows figure it out.

Kids advice on how to seduce girls :

- Dress in a suit
- Drink J&B
- Pretend to be a sales representative

My advice ?? Don't believe him, as he's still a Single White (Fe)Male.

POWERPLANT claims he has been to the States. Though this is untrue as he has been hospitalised for 2 weeks after ATMOS ran him over with his truck (see picture p.12) out of complete stupidity.

Bod has been seen chasing his mother down the road with an axe as she kept on sowing the holes in his pockets. To Be Continued.....

Remarkable news due to the fact that PSYCHOBILLY and TERMO left the group, one of the reasons should be that he achieved everything that one could in the scene... Secret Man left the group and joined AFL. Thats all i can remember RSI wise...

Current memberlist :

Trigger-Mr.President-Irata-Lincoln-Benson-Image-Count 0-TNM-Street Tuff-Scat-Breggo-Posdnugs-Breaker-Secret Man-Communist-HOK-Crisp-MO-TBB-Silver-Anarchy and the sysop from Forplay 'Nightwriter'

AFL

Well as soon as they got reformed they kicked ass but then they released a couple of bad cracks (Hermetic, Do or Die etc..) and some re-releases, so they got pretty much ragged on by the entire scene. After they they slowed down a bit, seemed to have learned their lesson and continue on kicking ass... Skinhead renamed into SUPREME. NATAS was one of their American hackers and got kicked out. They seem to be kinda unlucky with the choice of their board 'The Evil Island' as it has been formatted 3 times since it became AFL Hq. Rough left Chromance and joined AFL but also LASER UK as a second group. RRR/Oxyron who is a grafician also joined AFL as second group. Sting seem to be their main cracker. Bizarre left the group and seems to have disappeared. Snooze joined after he left TRANCE.

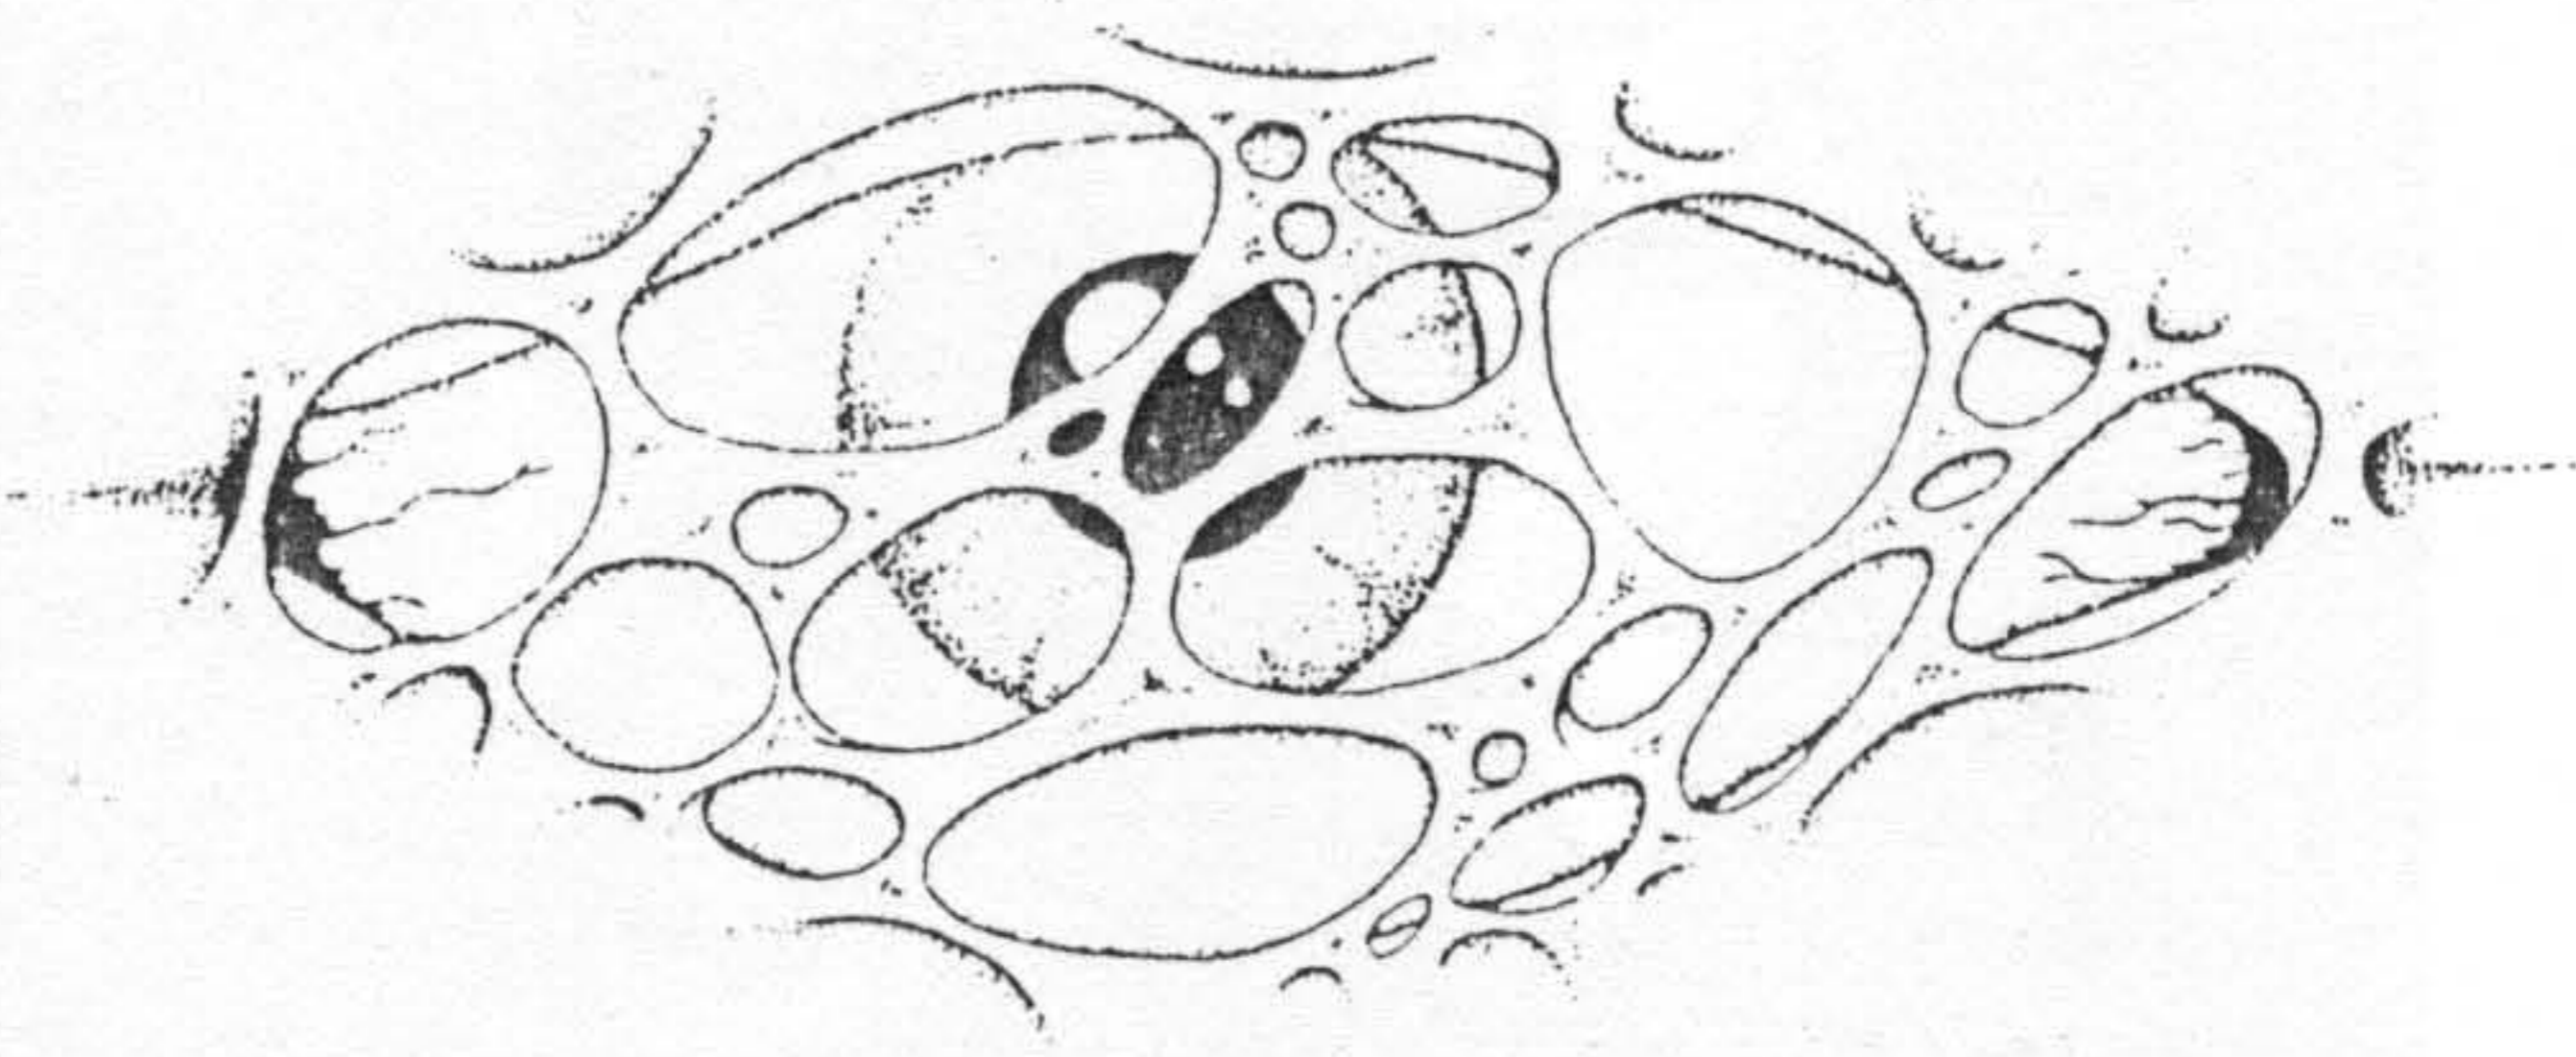

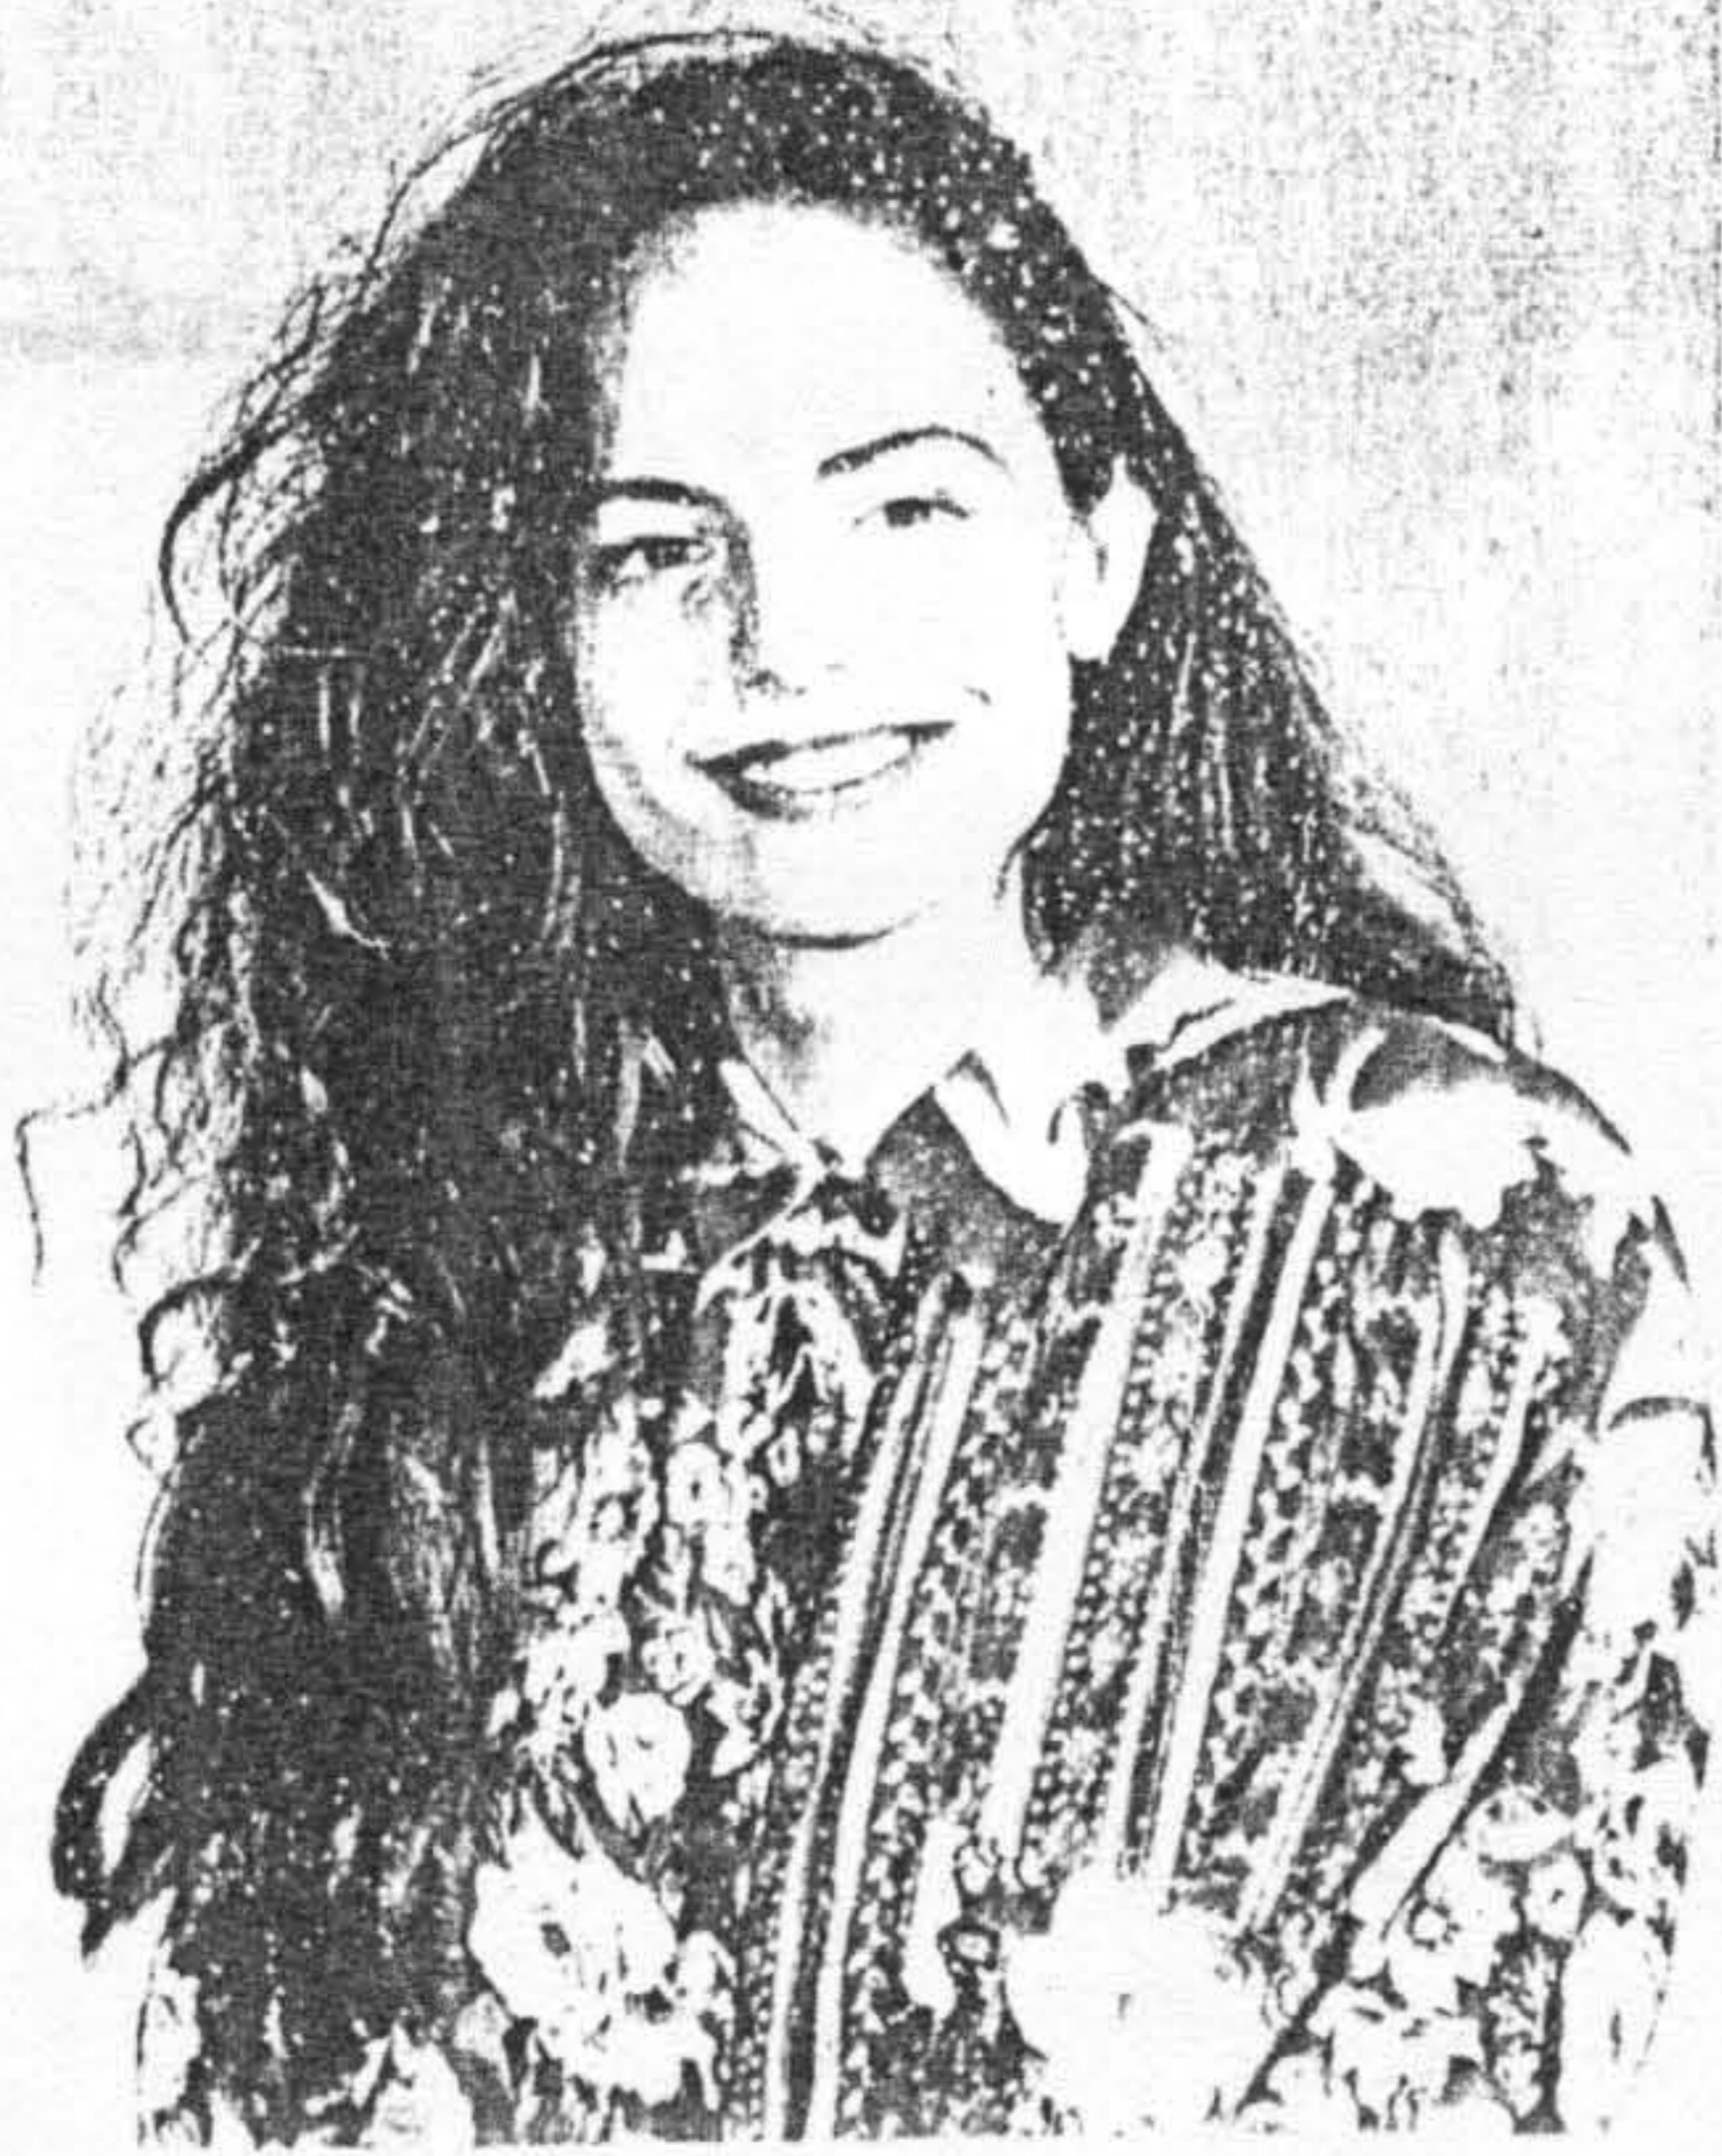

A memberstatus seems to be secret but we give it a try :

Max-Marc-Rough-Jazzcat-Skid Row-Secret Man-Golum-Supreme-Martin-Ancient Mariner RRR-Doc Stoned-SDI-M+C-Maja-Lord Crucifier-Snooze-Honesy-Styx-Splatterhead + *EXA 124 THE CRACKER*

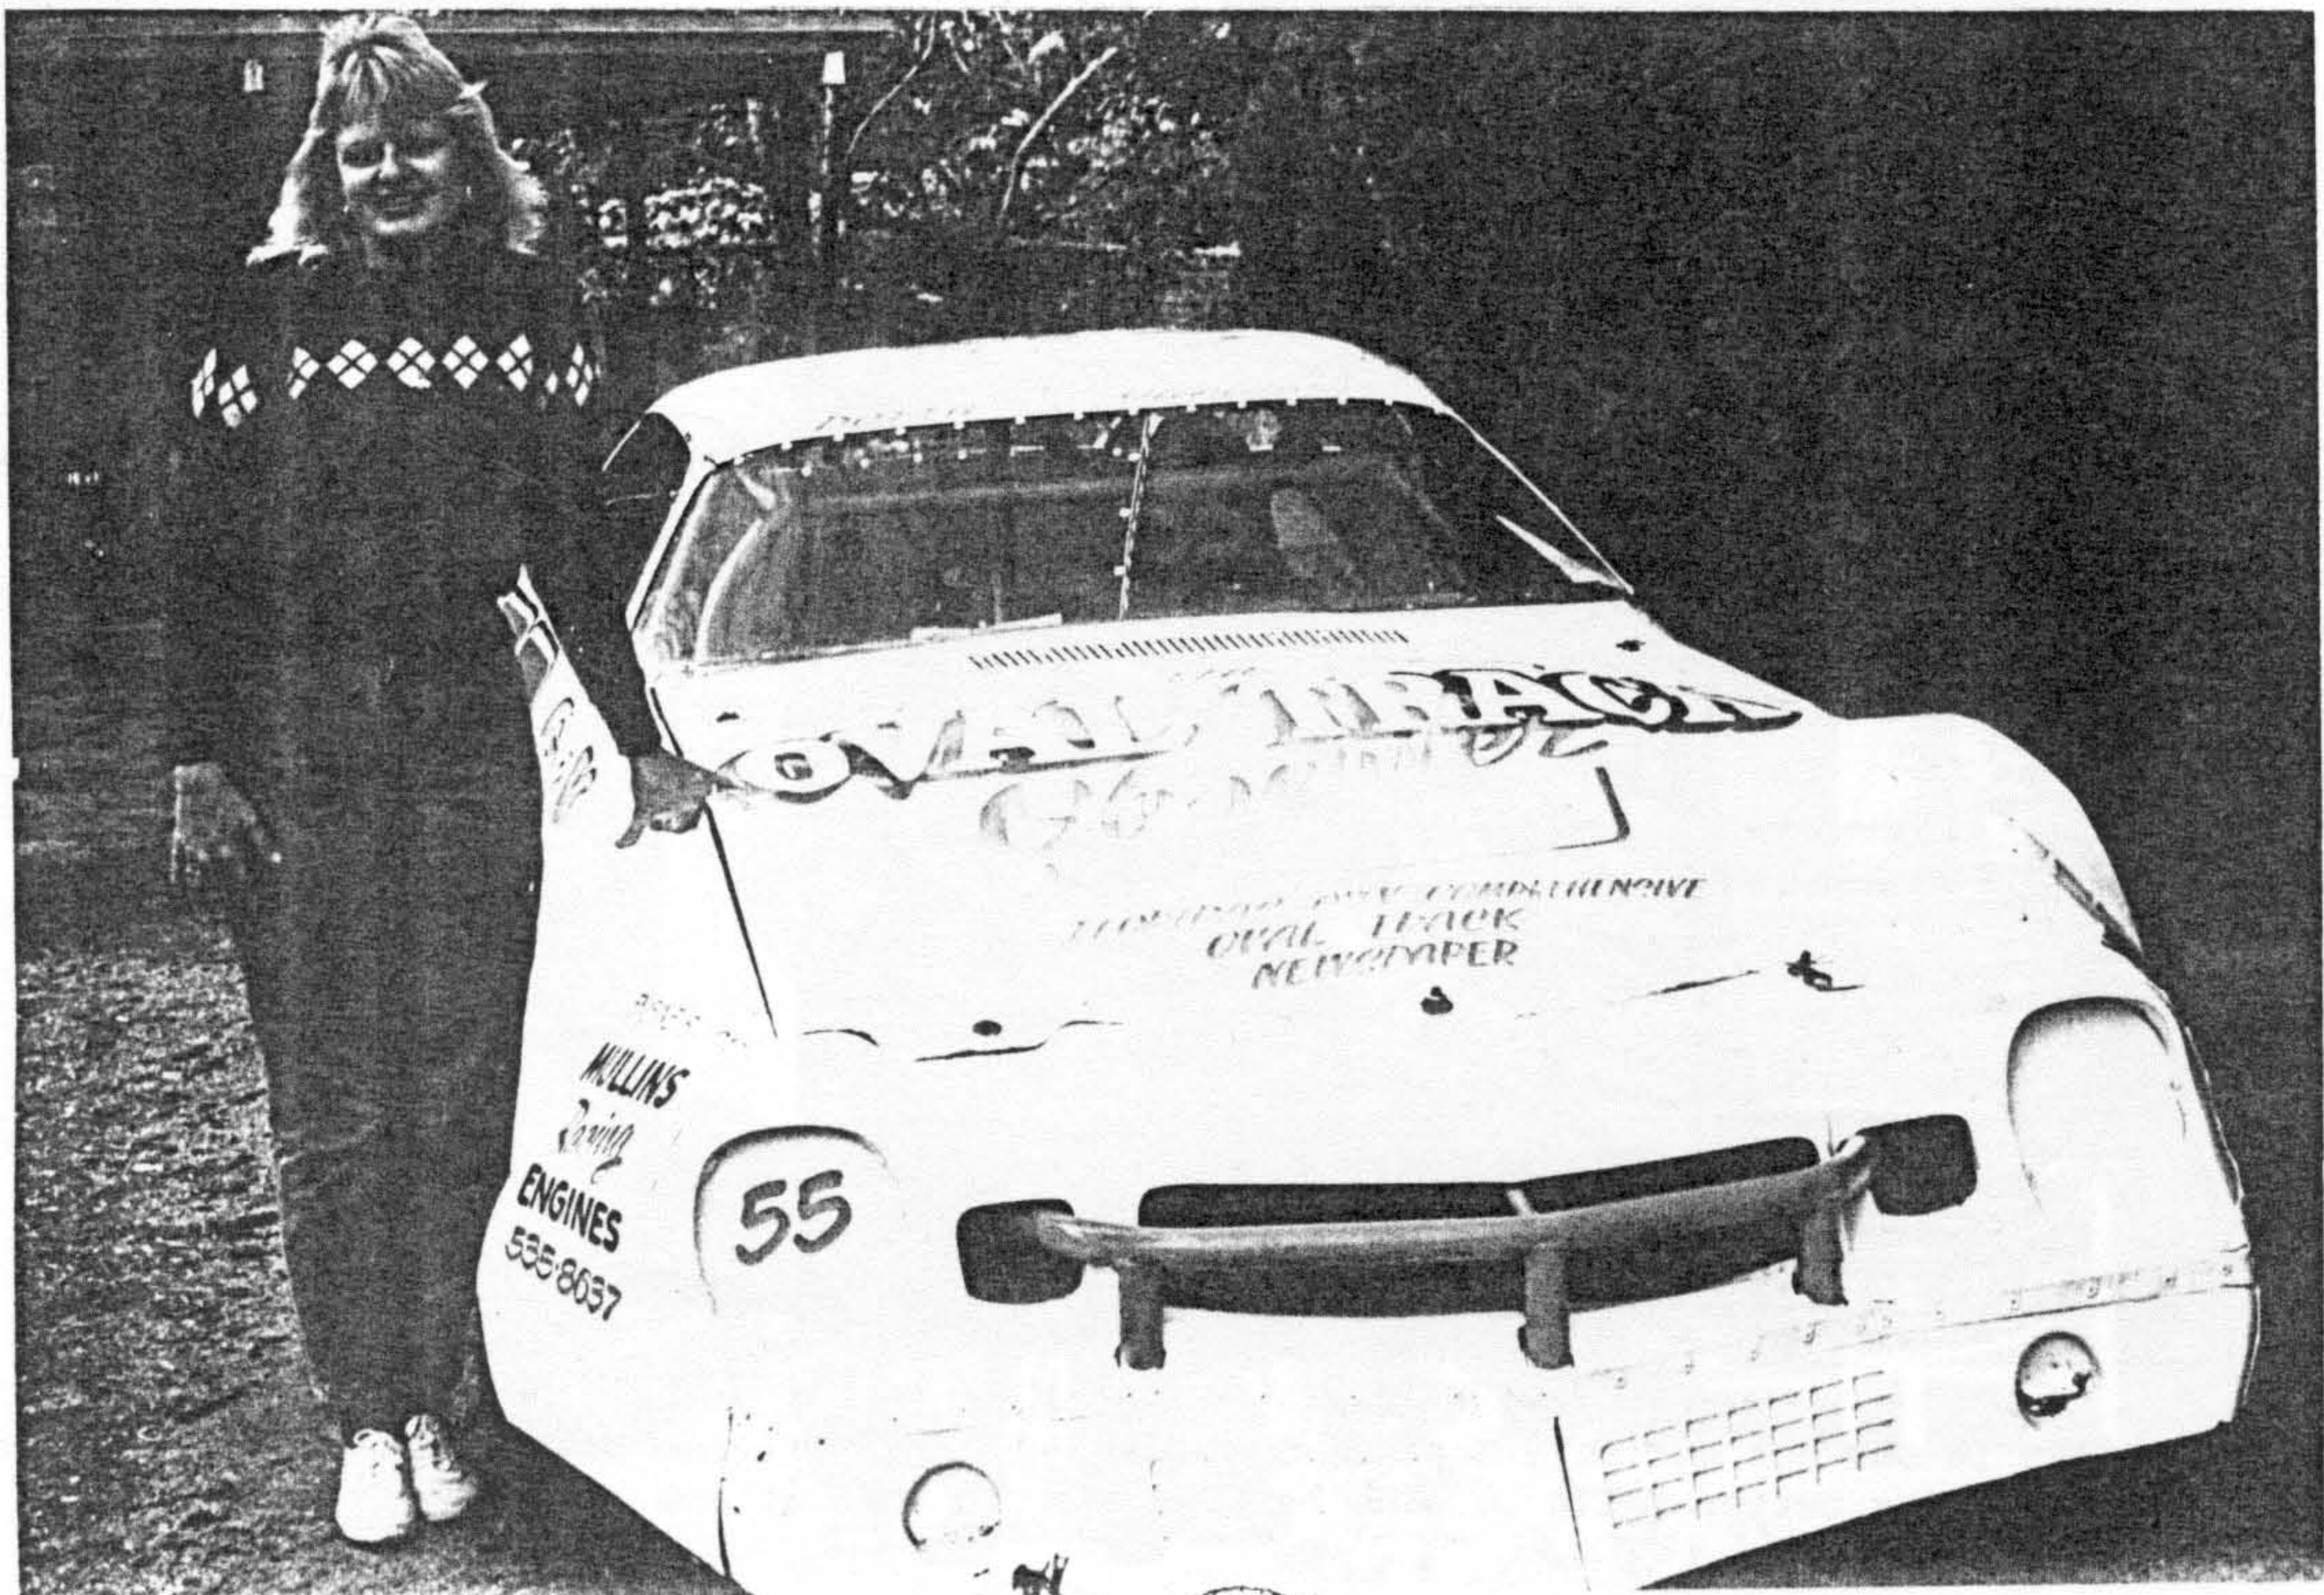

- * Vision seem to be back aswell with some old members such as Curlin, Racoon and others. Iceball left Epic and joined. Decarion returned to the scene (really.. Never heard of him ed.) Also the old Spiderman/ ex X-Factor joined. Their new Hq 'Dead Zone' can be reached at 215-637-0823. Hercules, Ace and Freddie left X-Factor. After Dr Jones left the group he rejoined anyhow.
- * The Silver Surfer left Succes and joined up with Silicon Ltd.
- * Another new group has been formed and goes by the name of MOTIV8, M8 or Motivate. Members are as far as they are known : Tricket-Crossfire-Jason-Mason and Doom... Due to the fact that X-Fire left Epic the group is as good as dead. Tricket put his bbs 'Dominic' back up as the Euro Hq.
- * Another group came popping up named PALACE. Not much known about this group except a few members like Delta (ex LEGEND coder)-2NY (former EXTEND) and Page.
- * As mentioned above somewhere LASER UK is back on the scene... but not really as a active cracking group.. Their aim is to crack games again and collect all the best versions of games... so you could call it a COLLECTOR group.. mmbers are STEVE (ex Zenith)-Rough-Kreator-Rick and Megasnail... So Electric Boys are dead aswell.... Steve will put up a UK board with a BIG library with nothing but old games.
- * SUZIEUZI and GREGG (Both ILLUSION) got busted for hacking and phreaking. As far as i know there has been charges and the police made a forced entry in both cases and had no legal search warrant. Yet all their equipment has been confiscated including books, notes and even SUZIEUZI's Bible.....
- * TRISTAN came back to the scene for a short visit as he shortly after had to go back to jail to do the remaining time for his bust, another 2 years. Also DRAGONLORD has been put away but in a Juvenial Mental Institute to get threatened for his sudden rage-attacks after he beat up his mother. He likes to break stuff... sounds like Beavis and Butthead.. hehe Cool...
- * TRC stuff... Jrc is inactive as he is in University and Virtual Reality (the TRC US Hq ed.) will be put back online somewhere early this year as soon as Villain will get his phone-line. Memberstatus : Cba-AJ-Trax-Defbeat-Rmc-Case-Jity-Alive-Jrc-Villain-Replay-Gorefest-Trooper-Cruze and Zar

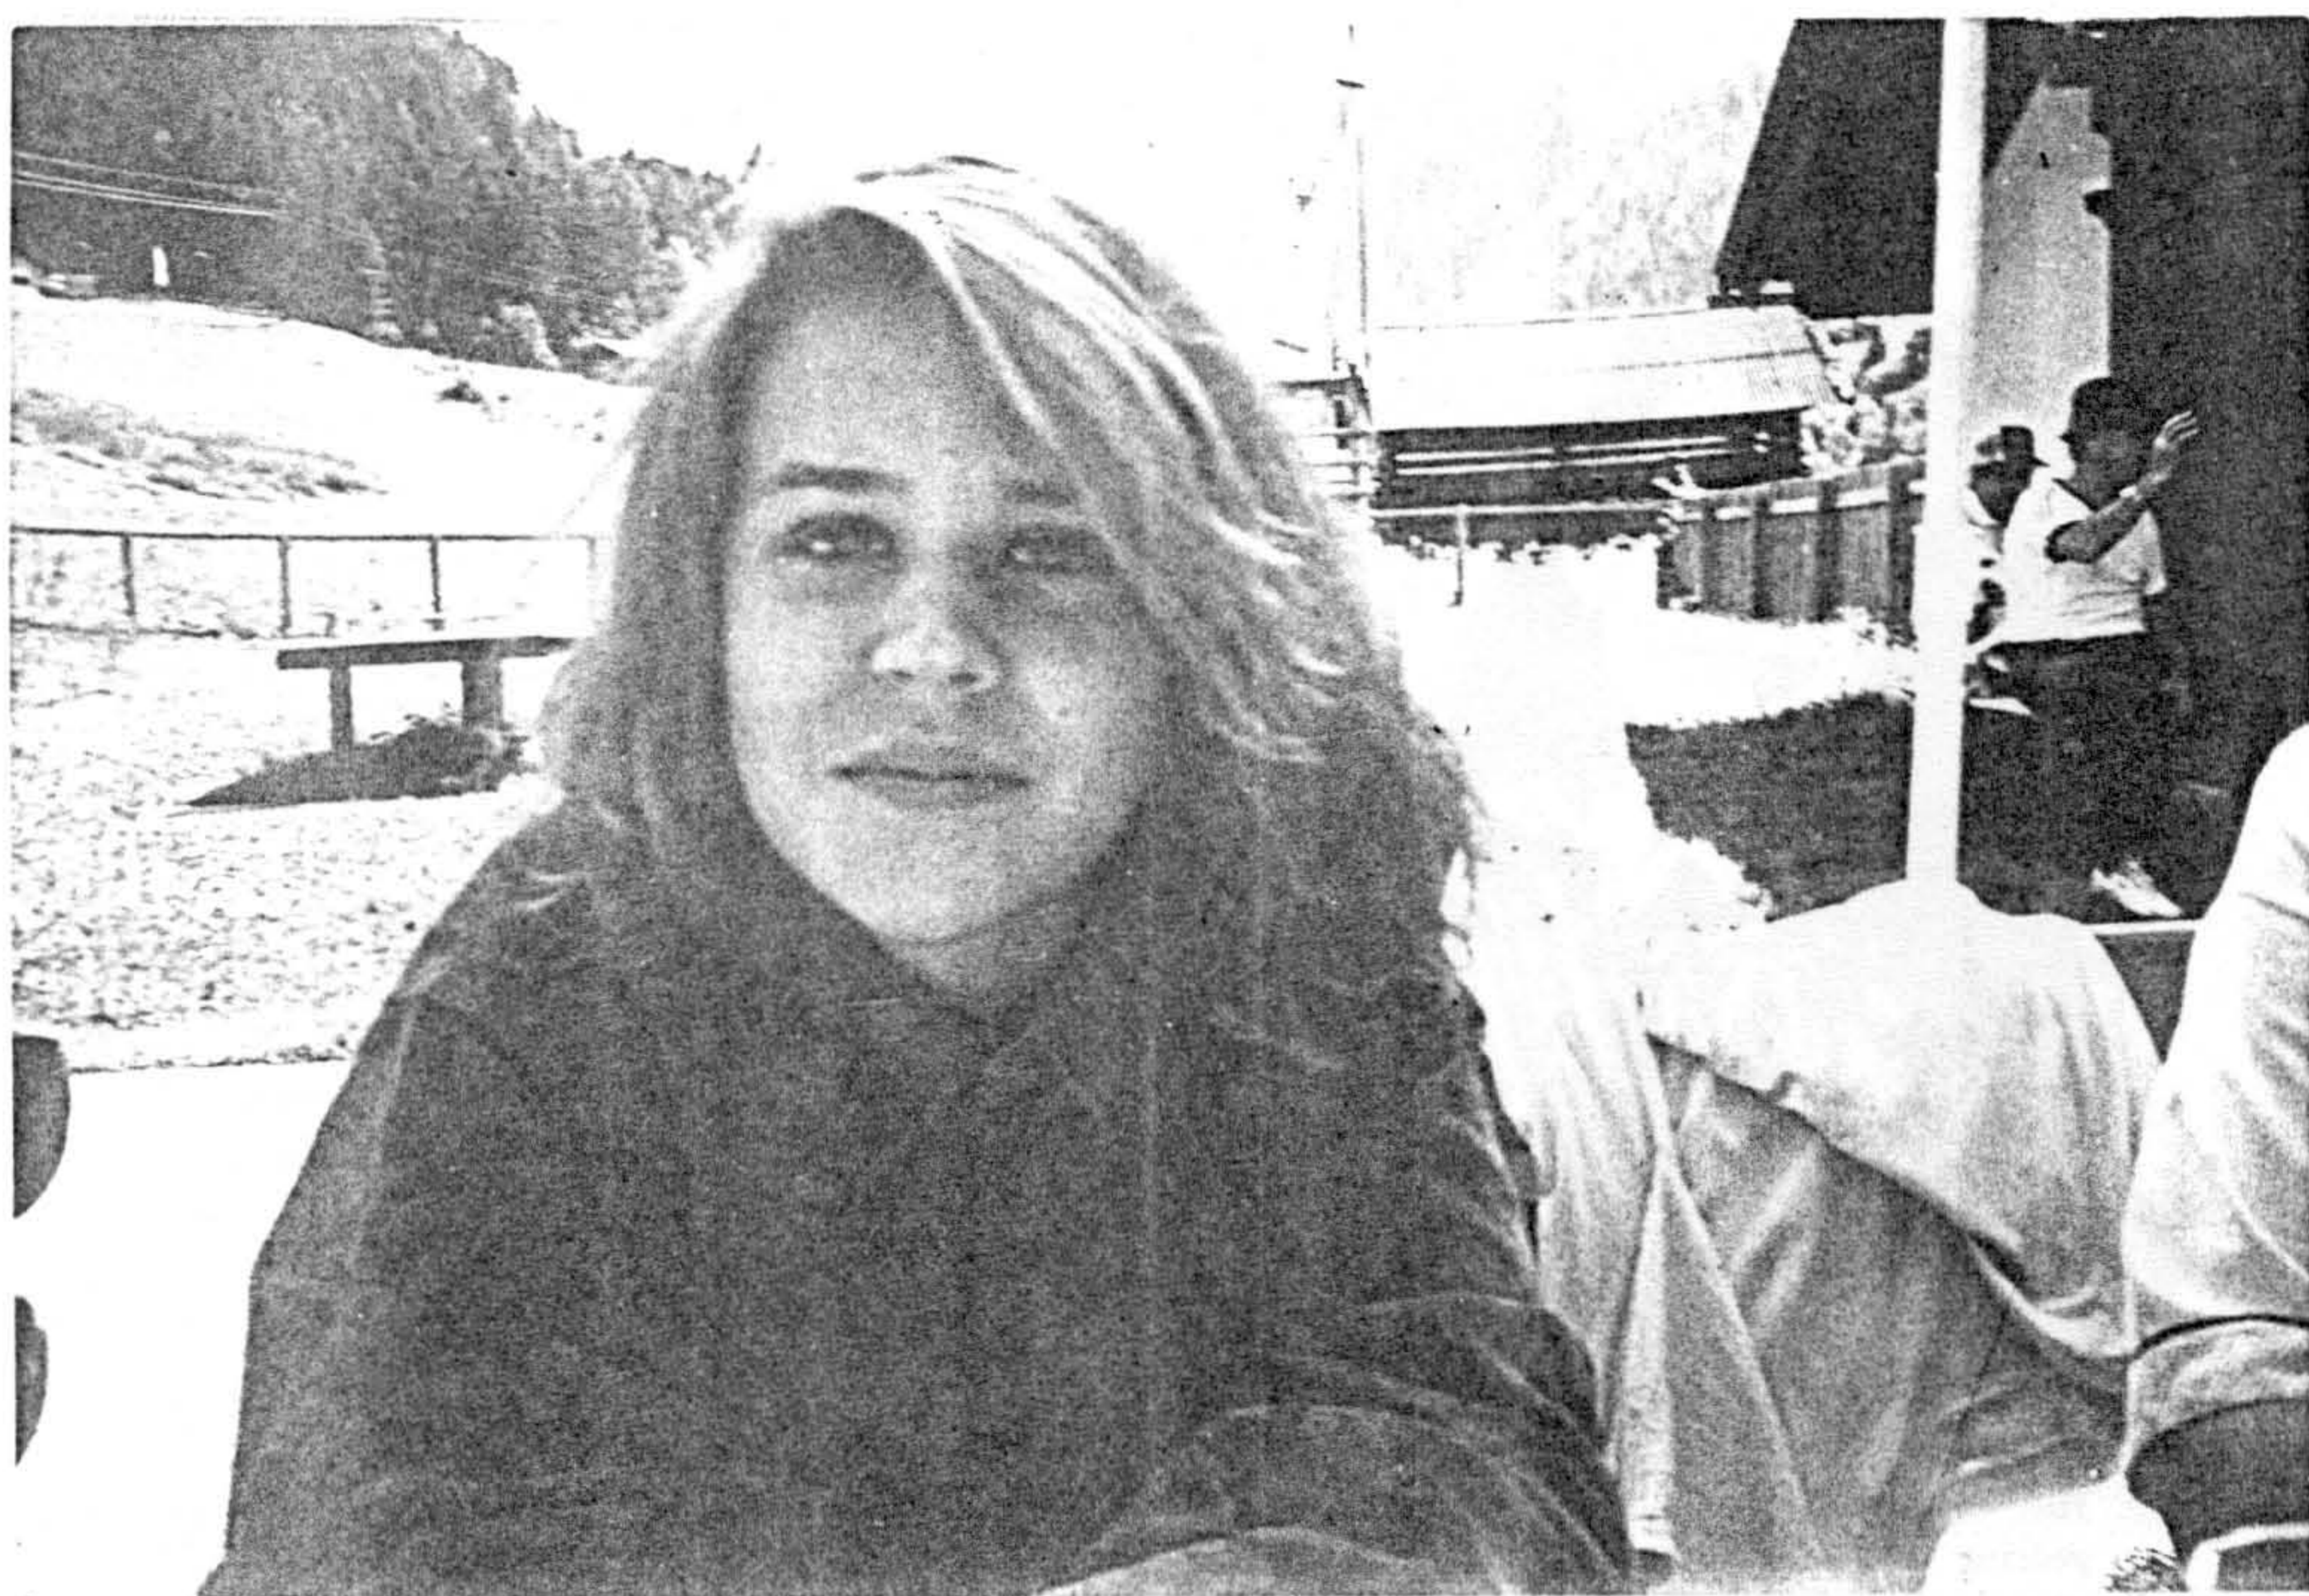

If i'm not mistaken this should be EXTREMIST's girlfriend named RACHEL..
How much do you pay her ???? Hahahaa

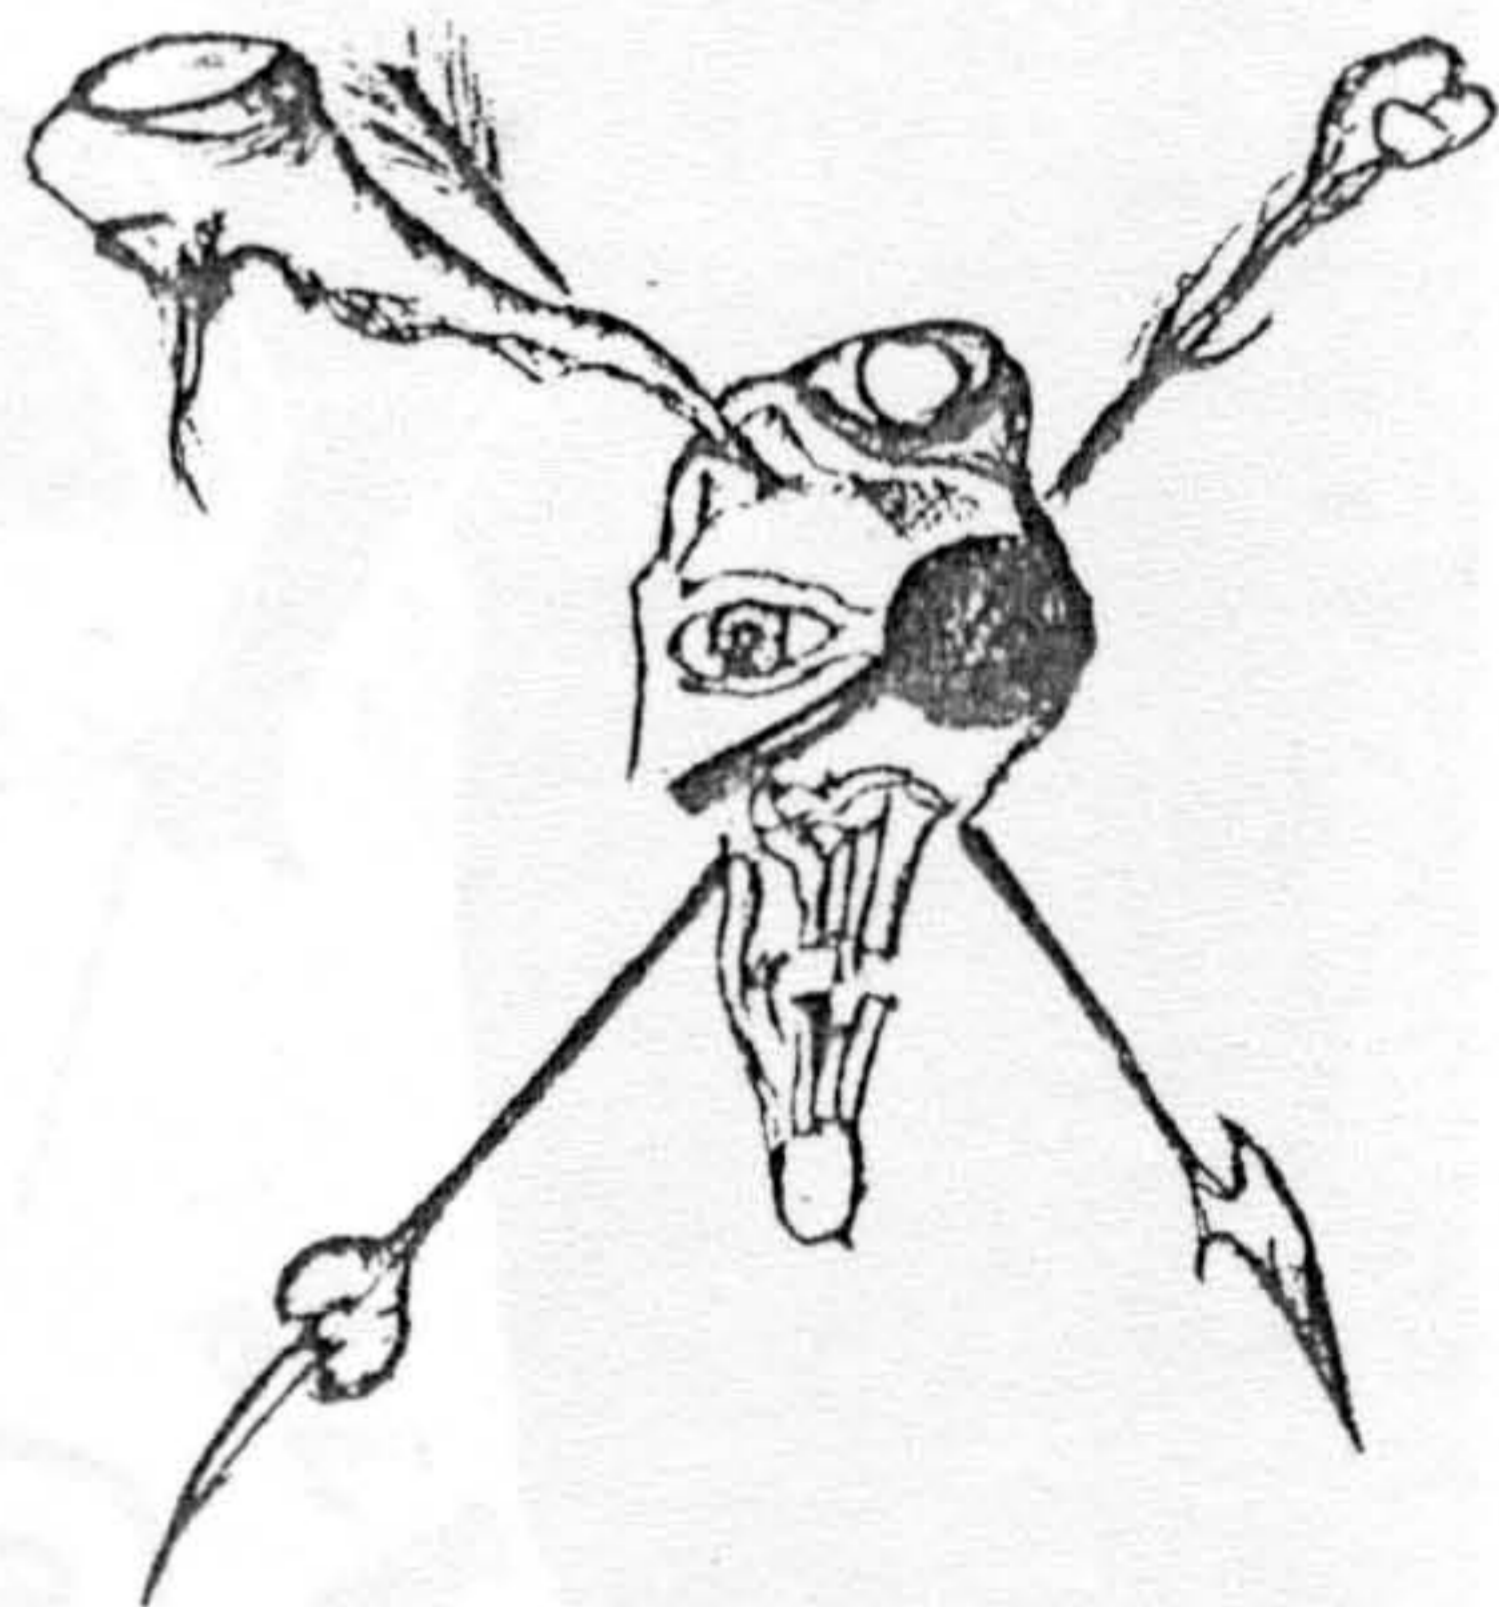

The one and only SUZIE with the UZI... A real stock-car racing freak !!! Is it yours ????

This is one of Majesty's many ex-girlfriends... So he says.. Well we know skins have more hair then brains otherwise you would've stayed with her...

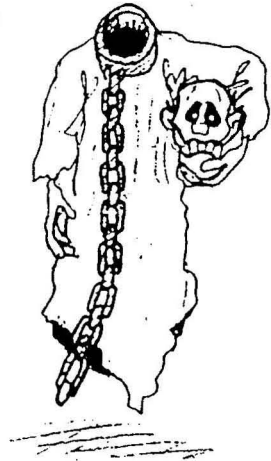

This is our one and only Italian Stallion DEFF's girlfriend BEATE.. Hope she is feeling better PITTA... The best of luck to both of you..

INTERVIEW

- P: To begin, tell us about yourself.
- C: Well, my name is Matt, and I live in Columbus, Ohio. I'm 5 foot 8 and 3/4, have brown hair and hazel eyes. I attend Ohio State University and am in my second quarter there (and by the time this gets published you probable graduated ed.) I am currently taking Math 148, Computer 211 and Arts 160. Aside from the computers, I play Bass Guitar and collect Comic Books.
- P: How long have you been in the scene ???
- C: Not long at all, really !! I started to actually meet some cool people when they started to call our board, but for two years or so, I called around a bit and got some wares, but never got to know anyone in the scene.
- P: Tell us about your group, The Alliance.
- C: Well, The Alliance is the longest lived C=64 group in history (and is almost history aswell ed.) It has been around since the beginning of Commodore Piracy !!
- P: What are your plans for the future ?
- C: We've done pretty well with our board (its down!!!! ed.), now we're searching for a competent fixers (who isn't ed.) to NTSC fix our imports. We have a cool intro that will be finished in a few dayz as of this writing (which is about 6 months ago ed.)
- P: Who are the members of The Alliance ?
- C: Well 'till not so long ago we were three members. Billy The Kid KA President, Cyberm0sh (me) and Aggressor (Who is now a mighty freelancer according to himself ed.) We are searching for new talent all the time. Note to the public : If you think you have something to add to the group call the board and leave e-mail with your abilities.
- P: What are your favorite things ???
- C: Food : Pizza
Drink : Coca-Cola Classic
Computer : Amiga
Console : SNES (AArrgghhss join Kid'n Ninja playing right now ed.)
Game : Stunt Car Racer, Another World, Amyputt (Amiga wares.. no 64)
Musical Group : Rush
TV Show : Ren + Stimpy
Pirate Group (Past) : ESI
Pirate Group (Present) : Illusion
- P: What do you see in the future of the C=64 ??
- C: I don't think it will be around for too much longer (how charming ed.) The number of wares being released is very small, and many good groups are dying, boards going down and people leaving the scene. It doesn't look very good for the future. So everyone will have to quit due to boredom of the scene due to no releases and move to the AMIGA/PC or quit computers altogether.
- P: Is there anyone you'd like to greet ?
- C: Yeah, first of all to my best buddy in the scene, Billy the Kid/TA PREZ. He and I have a lot in common outside of the scene, and we think a lot a

like. He has taught me a great deal about the scene ; the old days, the legends, the way things used to be, and the way things should be in the scene today. Also greets go out to Majesty/Talent (How's the 'red light district', Marco ?), Solar/F4CG (Thanks for all your support, Rainier ! **Pirates rules !**), Jihad/Arcade (One very friendly guy ! Good luck on PC, if you ever leave the scene that is!), Aggressor/TA (What's up Chris ? Keep up the good work!), Jinx/Chromance and Secret Man/RSI (two of the best users on my board ! Thanks and keep it up!), Pol Pot/Arcade (Greetings to one cool dude ! Good luck in the future, Dave !), Blackice/Eclipse (one of the best coders on NTSC.. A cool friend too !), Cybernoid/Style (Thanks for the logo !).

P: Any special 'disregards' to anyone ?

C: Yeah, to Radar/Arcade for never calling the board after I sent him a special invitation. Didn't even mail me back. So curl up and die ! (unless you want to call it now...) And to Mutant-X, for lying to BTK about the Hard Drive, and about going to the army. You didn't actually think we believed you, did you ? Hey Thor... Have fun with the HD... By the way, please don't pay ed. as he's as big as a dick as you are, Birds of a feather, eh ?

P: Well, thanks for the interview, Matt.

C: No sweat. It's been cool.

P: Any last words ?

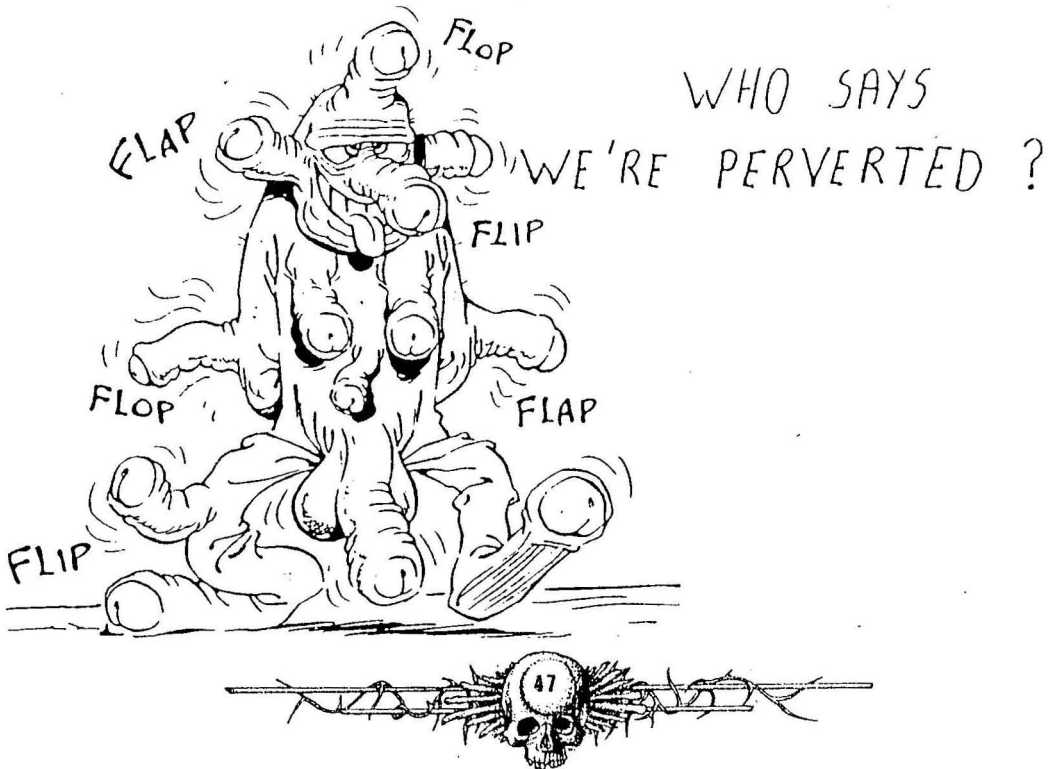

C: Yeah, I wanted to plug the board.

All you cool guys call 'Ware Wolves BBS', The Alliance HQ at 614-351-7377.

It's 1200/2400, 0-1 day wares, 20 megs, etc.

Among the ones i consider interesting were : THE SILENTS, EXACT and CRUSADE. When i returned in 1991 i made a quick but notable visit in JOY DIVISION, VISION and CALADAN (an idea of Skinhead/AFL and me)

Function: Organizing G*P along with others under steady contact with Antichrist, in order not to loose the bounds of G*P. Furthermore i edit Propaganda along with a wonderfull staff i'd never miss out on! When not working with this i do my rounds on the boards try to be an itch in the ass for everybody there. ARTICLE

Since 1 jan. 1994 a new law has been approved by the senate to allow Voice Prints (VOP) as evidence in US court. At&t is negotiating with some foreign countries too about the discussion about the reliability of Voice Prints as evidence.

Voice Prints (V O P) could be the best thing At&t has against calling card abuse as of yet. The system only works with operator assistance. It stores the a persons voice (analog) data onto a digital tape or dat system. These tapes can be used to find further card abuse by the same person and could be used in court since they are clasified as unique. Each person has his own typical Voice Print and new techniques have put this 'evidence' in the same class as fingerprints which as we all know are used as evidence in court on a dayly base.

CMR will automatically match all calling cards in operation continuously and when two matching calling cards are found to be in operation at the same time, an AT&T operator will be notified. The computer will then automatically try to locate the calling card users (working on the presumption that only one calling card is usually being used at a time), and detect the kind of conversation. The computer will [Bold Underlined] not tape any voice conversations, it will merely register the kind of conversation, being it voice, data or other.

This information will be stored in a record and the original owner of the calling card will be contacted and asked if permission has been given, if that is not the case AT&T will take legal actions towards the abusers. This is where VOP will help to get us a conviction of the abuser(s) being it national ('United States and Canada) or foreign (Sweden, Scandinavia, Norway, Finland, Germany, Belgium, The Netherlands and Australia which together amount for about 90% of the calling card abuse are all willing to test VOP and if found reliable they will consider it to be used in court). Our At&t direct lines will replace, if present, the computer touch tone systems for an operator based system to be able to get VOP from the abusers. And if the country in question has accepted the VOP to be used as evidence in court a confiction based on that particular countrys law will follow. At&t is very annoyed about the continueing growth off card abuse in conjunction with long distance calls, there for the countries mentioned above will get a high priopity since these illegally made costs are considerably higher as local phone calls.

CMR is planned to be introduced in February 1994. VOP is as of this moment installed in all countrys which had a computer system and which were switched to a operator base system.

These are the ones that make it possible for you
