License Agreement

You may modify the images and use them in your own applications, websites, and digital media subject to the following terms and conditions:

Type of License:

You will receive a **"site license"**. This entitles "one company" at "one location" to use our icons in any number of projects, subject to the terms of this agreement.

No transfer of ownership:

You may not lease, resell, license, or sub-license the images, or a subset thereof, to any third party. This also applies to any derived artwork or modified images from the Professional-Icons.com icon collections. The images may not be used to sell or otherwise promote image collections that compete directly with Professional-Icons.com. You may not grant or otherwise make available for use the images in their original or modified forms.

No royalty fees:

Once you have purchased a license, there are no royalty fees. This means you can use the images in your software and design projects without having to pay additional licensing fees.

Creating applications for clients:

You may create software applications or websites on behalf of a client, as long as the client does not modify and resell the application or website. If the client is engaged in joint development or intends to modify the icons or use them for other purposes, an additional license must be purchased from Professional-Icons.com.

Distributing the images:

All distributed images must be "in use" by the distributed application or website. You may not include the collection to "add value" to your product or service. Care should be taken to protect the artwork and/or derived artworks from being copied and/or obtained by a third party. If you are distributing a website, we understand that there is no way to compile the images into a DLL or resource library. This is acceptable as long as the other terms are met.
